Requirements for a Minor in Biology

UTA College of Science

Student Name:____________________________________________________

Student ID Number: ____________________________________________

Major: __________________________________________________________

Mandatory Courses:
BIOL 1441____
BIOL 1442____

Optional Courses:
BIOL 34xx__(LAB)____
BIOL 33xx__________
BIOL 33xx__________

8 hrs. 10 hrs.

*BIOL 1301, 2317, 2457, 2458, 2460, 3303, 3309, 3305 may not apply toward a minor in Biology. (See Biology Advisor for a more extensive list and for course approvals.) Non-lecture courses such as research, directed study, co-op, or lab TA credit may not be used toward a minor in Biology. There will be a limit on the number of UTTER classes allowed for a Biology Minor.

Residency Requirement: The College of Science mandates that half of the coursework for a minor in Biology be completed in residence at UT Arlington – this requires a minimum of 9 hours in Biology be completed at UTA. A minimum of 6 hours of the 18 required for the minor must be at the 3000/4000 level.

Grade Requirement: The College of Science requires a minimum 2.0 minor GPA.

Approvals:

Major Department: ________________________________________________ Date

Biology Department Advisor: ________________________________________ Date

The minor is officially declared and posted in MyMav upon submission of this signed Minor Requirements Form to the Biology Department Advisor located in 345/346 Life Science Bldg. 817-272-2408.
