

Divisions of the Descending Aorta:

Thoracic Aorta

[UNPAIRED; multiple]

Bronchials

Pericardials

Esophageals

Mediastinals

[PAIRED]

Intercostals

Superior phrenics

Abdominal Aorta

[UNPAIRED; single]

Celiac trunk

Left gastric

Splenic

Left gastri-cep-ic

Pancreatic

Common hepatic

Hepatic

Right gastric

Cystic

Gastro-duo-denal

Right gastro-ep-ic

Superior pan-creatic-duo-denal

Superior mesenteric

Pan-creatic-duo-denal

Intestinal

Right & Middle colic

Ileo-colic

Inferior mesenteric

Left colic

Sigmoid

Rectal

Right common iliac

Right internal iliac

Right external iliac

Femoral

Deep Femoral

Popliteal

Anterior tibial

Posterior tibial

Peroneal

Dorsalis pedis

Medial & Lateral Plantar

Dorsal (arcuate) arch

Plantar arch

[PAIRED]

Inferior phrenics

Suprarenals

Renals

Gonadals

Testicular

Ovarian

Lumbar

Left common iliac

Left internal iliac

Left external iliac
