STANDARD OPERATING PROCEDURE
Search for Safety Data Sheet/Material Safety Data Sheet

Step 1: Go to Chemical Environmental Management System (CEMS) http://cem.s.uta.edu.

Step 2: Click “Search MSDS” in “Quick Links” window.

Material Safety Data Sheet Search

- Chemical Name
- Product Number
- Molecular Formula
- CAS
- Manufacturer

- Material Safety Data Sheets (MSDS) contain detailed information regarding the proper use and handling of particular chemicals. A Detailed MSDS FAQ, including additional online MSDS resources can be found at http://www.ilpi.com/msds/faq
- Searches done here provide access to only those documents available within the local MSDS archives. While this archive currently contains 56,116 MSDS and is continuously growing, there may be documents you cannot find.

Step 3: If the results of your search differ from what you’re looking for, uncheck “fuzzy search” and try again or “Contact EH&S” in “Quick Links” window.
