glass

Got METH ?

OR has it got YOU ?

Made in a lab.

There is nothing natural about it.

All chemicals and household stuff.

Lye, drain cleaner, iodine, battery acid, cold medicine, etc....

And other things you would never dream of putting in your body.

"METH" comes in many different forms and is snorted, swallowed, injected, or smoked.

Ingredients:

Battery Acid Cold Medicine
Drain Cleaner Acetone
Rock salt Lye
Antifreeze Kitty litter
Lithium Batteries
Toluene

PCP

Angel Dust
Supergrass
Killer Weed
Embalmin Fuel
wack
ozone

In its pure form, **PCP** is a white crystal-

line powder that readily dissolves in water; however, **PCP** on the street contains a number of contaminates causing the color to range from brown to black with a consistency ranging from powder to a gummy mass.

PCP is most commonly sold as a powder or liquid.

PCP may also come in tablet or capsule form.

Consequences of PCP use:

Numbness, slurred speech, loss of coordination, rapid and involuntary eye movement.

Auditory hallucinations, image distortion, severe mood disorders, amnesia.

Acute anxiety, a feeling of impending doom, violent hostility, psychoses similar to schizophrenia, mental disorders, death.

LSD

Acid
Blotter Acid
Window Pane
Dots
Mellow Yellow

Sold on the streets in tablets, capsules, and occasionally in liquid form. It is an odorless colorless substance with a slightly bitter taste that is usually ingested orally. It is often added to absorbent paper. Sold to children on paper "TABS."

Both short and long term effects are unpredictable.

FLASHBACKS AT ANYTIME--EVEN YEARS AFTER USE
