

CONSTRUCTION RESEARCH CENTER

September 21, 2011

Ladies and Gentlemen:

The Construction Research Center (CRC) at The University of Texas at Arlington is a nonprofit organization within the Department of Civil Engineering. It was established in 1972 as a vehicle for the development of construction technology and dissemination of newly developed technology to the professional community. The CRC, advised by member industry representatives (the Construction Research Advisory Committee - CRAC), is establishing a dynamic record of university/industry cooperation toward the realization of mutual objectives. Participation in CRC through membership in CRAC is open to anyone in industry having an interest in the construction industry.

In 1990 the Construction Research Center established the Building Official/Building Inspector of the Year Award. The 1990 through 2011 award recipients are: W. O. Allen of Garland, James Stallcup of Ft. Worth, Bob Fowler of Abilene, Lon Fairless of Carrollton, Gail Graves of Richardson, Danny Moss of Bedford, Mike Brewer of Mesquite, Clint Standford of Grand Prairie, March Coover of DeSoto, L. Keith Lofland of Garland, Ravi Shah of Carrollton, Paul Garvin of Sachse, Selso Mata of Plano, George Patterson of Arlington, Lawrence Crow of Irving, Paul Ward City of Southlake, Bill McGovern of Plano, Clyde Lackey of Ft. Worth, Ed Dryden of Arlington, Les Folse of Allen, Gary Miller of Irving and Eddie Wilson City of Southlake respectfully. The award has been established to recognize the often overlooked contribution of building officials and building inspectors in our building environment. It is intended to promote a more effective partnership among the construction industry, research, and academic community, and the local governments.

The criterion of the award includes:

1. Professionalism (reliability, commitment, integrity)
2. Code knowledge
3. Communication skills
4. Participation in community activities
5. Certifications

In previous nomination solicitation, nominations were received for both Building Officials and Building Inspectors. Due to the difficulty of the selection process across those two fields the selection committee has decided that the 2012 solicitation is for nomination of only Building Officials. The first step in selecting the 2012 Building Official award recipient is the nomination of appropriate individuals by knowledgeable people such as you. Please use the enclosed nomination form for your nominee. If you are unable to nominate someone at this time, please forward this information to other appropriate individuals for their use.

Please note that the due date for the nomination to be turned into the CRC is November 11, 2011. Thank you for helping the CRC recognize those individuals that plays such an important role in our built environment.

Sincerely,

John H. Matthys, Ph.D., P. E.
Director
