

**Track C
Geotechnical School for Pipelines and Trenchless Technology[®]**

**Sunday, January 22, 2012
Room La Condesa East
Hilton Palacio Del Rio, San Antonio, Texas**

7:30 AM	Registration
8:15	Welcome
8:30	Geotechnical Investigation Needs, Phases and Planning, Anil Misra, Ph.D., P.E., The University of Kansas
9:30	Soil/Rock Classification and Properties - Part I, Anil Misra, Ph.D., P.E., The University of Kansas
10:30	Break with Refreshments
10:45	Soil/Rock Classification and Properties - Part II, Anil Misra, Ph.D., P.E., The University of Kansas
12:00	Lunch (on your own)
1:00 PM	Geotechnical Investigation Methods and Geotechnical Baseline Reports, Anil Misra, Ph.D., P.E., The University of Kansas
2:00	Geophysical Methods Mark Wallbom, Underground Imaging Technologies, Inc.
3:00	Break with Refreshments
3:15	Subsurface Utility Engineering Mark Wallbom, Underground Imaging Technologies, Inc.
4:00	Rock Mass Properties and Their Affect on Trenchless Projects, David Scarpato, P.E., Haley & Aldrich, Inc.
5:00	Conclusion and Distribution of Certificates
