

School B
Geotechnical School for Pipelines
and Trenchless Technology[©]

**Part One – Geotechnical Considerations for Trenchless Technology
Planning, Field Investigations, Data Interpretation/Profiles and Reports**

Monday, Jan. 28, 2019
Fort Worth Convention Center, Fort Worth, Texas

Presented by
McMillen Jacobs Associates

7:30 AM	Registration
8:00 - 8:15	Welcome and Introductions
8:15 - 9:15	Module 1 Overview of Trenchless Technology Methods Geotechnical Requirements Unique to Trenchless Technology Tennyson Muindi, P.E., McMillen Jacobs Associates
9:15 - 10:00	Module 2 Geotechnical Investigations I - Desktop Planning/Site Reconnaissance Bradford A. Miller, P.G., Haley & Aldrich, Inc.
10:00 - 10:15	Break
10:15 - 11:00	Module 3 Geotechnical Investigations II - Field Explorations, Lab Testing, Geophysical Methods, and Reports Nicholas H. Strater, P.G., Brierley Associates, LLC.
11:00 - 11:30	Module 4A Geotechnical Data Interpretations - Soil Geologic Data presentation, Settings, Profiles Bradford A Miller, P.G., Haley & Aldrich, Inc.
11:30 - 12:00	Module 4B Geotechnical Data Interpretations - Soil Overview of Trenchless Ground Behavior and Modification Aids Tennyson Muindi, P.E., McMillen Jacobs Associates
12:00 Noon	Evaluations and Distribution of Certificates
