The University of Texas at Arlington
The Department of Exercise, Sport, and Health Studies
presents
18th Semi-Annual Lecture
of the
Texas American College of Sports Medicine
With
Eric Poehlman, Ph.D.
University of Maryland at Baltimore and Veteran Administration Medical Center in Baltimore

LECTURE:
“Metabolic Control and Aging”

Wednesday, October 4, 1995 – 12:00 Noon
Activities Building  Lone Star Auditorium
Eric Poehlman, Ph.D.

Dr. Eric T. Poehlman is currently an Associate Professor of medicine and physiology in the Department of Medicine, the Division of Gerontology at the University of Maryland at Baltimore. Dr. Poehlman is also Associate Director of Research in the Geriatric Research, Education and Clinical Center at the Baltimore VA Medical Center.

Dr. Poehlman earned his Bachelor of Science degree from Springfield College, MA in 1977 and his Master of Science degree at The Pennsylvania State University in 1979. He studied for his Ph.D. at University Larval at Quebec City, Canada in 1986 and then did a postdoctoral fellowship in Endocrinology in the Department of Medicine at the University of Vermont from 1986-87.

Subsequent to his formal training, Dr. Poehlman was employed at Purdue University (1985-87) in exercise physiology and biomedical engineering. He then returned to the University of Vermont (1987-1993) as a postdoctoral NIH Research Fellow, Assistant Professor and Associate Professor in the Department of Medicine. He has been in his current position since 1993. Dr. Poehlman has been awarded over $1,500,000 in 17 different grants. He has over 75 articles published in refereed journals such as the Applied Journal of Physiology, International Journal of Obesity and the Annals of Internal Medicine. Additionally, he has 10 manuscripts in press, six manuscripts in review while having 23 reviews and book chapters published. Finally, Dr. Poehlman has 65 published abstracts and made over 60 scientific presentations at scientific meetings.

Dr. Poehlman, who has been a manuscript reviewer for 13 adjudicated journals, is a winner of the New Investigator of the Year by the American College of Sports Medicine. Dr. Poehlman's lecture topic today is “Metabolic Control and Aging.”

There will be a brief question and answer period at the end of the presentation. Please give Dr. Poehlman your attention until the end of the question and answer session. Thank you!
