The University of Texas at Arlington
The Department of Kinesiology
presents
35th Semi-Annual Lecture of the
Texas American College of Sports Medicine

With
Terry J. Housh, Ph.D.
Director of the Exercise Physiology Lab
&
Co-director of the Center for Youth Fitness and Sports Research
University of Nebraska-Lincoln

LECTURE:
“Electromyographic and Mechanomyographic Aspects of Muscle Function”

Wednesday, February 25, 2004 – 12:00 Noon
Activities Building Lone Star Auditorium
Dr. Housh's primary research interests are growth and development in young athletes and muscle function. He has co-authored over 130 peer-reviewed research articles and four college textbooks as well as over 150 presentations at annual meetings of professional organizations including the American College of Sports Medicine (ACSM), American Alliance for Health, Physical Education, Recreation, and Dance (AAHPERD), National Strength and Conditioning Association (NSCA), and National Athletic Trainers’ Association (NATA). He was the 1998 recipient of the Outstanding Sport Scientist Award from the National Strength and Conditioning Association.

Dr. Housh is an Associate Editor for the Journal of Strength and Conditioning Research and he reviews for a number of journals including Medicine and Science in Sports and Exercise, Research Quarterly for Exercise and Sport, Journal of Applied Physiology, and Pediatric Exercise Science.

His most recent scientific articles include:

His most recent textbooks include:

There will be a brief question and answer period at the end of the presentation. Please welcome Dr. Housh to UTA and give him your attention until the end of the question and answer session.
