UTA School of Nursing
Nurse Practitioner Clinical Evaluation

Student Name: _______________________  Site: ________________________________________    Date:  __________________

Course:  □ N5303 □ N5305 □ N5306    Major: ___________   Mid Semester: ___________   Final: ___________

Faculty Evaluator(s):  ________________________________________________________________________________________

Client Profile (age, chief complaint) _____________________________________________________________________________

Circle the number that corresponds to the student’s clinical performance a majority of the time. Use the following key:

N/A no opportunity to perform
0 omitted required item (omitted a critical element)
1 required extensive prompting
2 required much prompting

I. ASSESSMENT

A. Subjective Data (History)

1. Obtains appropriate history for comprehensive, interval, or acute episodic visits.  N/A     0       1        2

2. Focuses on priority areas in data collection. N/A     0       1        2

3. Demonstrates skillful interviewing techniques sensitive to individual, family, or group client needs including sensitivity to socioeconomic groups.  N/A     0       1   2

4. Identifies factors influencing health and/or disease management  N/A     0       1   2

Comments: _______________________________________________________________________________________________

B. Objective Data – Physical Examination

1. Performs the indicated exam (comprehensive, interval, or acute episodic) in an organized manner. N/A     0       1   2

2. Uses assessment techniques and equipment correctly. N/A     0       1   2

3. Differentiates normal from abnormal findings (obvious and subtle). N/A     0       1   2

4. Modifies the exam to reflect chief complaint, presenting symptoms, exam findings, and differential diagnoses. N/A     0       1  2

5. Conducts and/or reviews previous physical, developmental, and screening procedures or labs. N/A     0       1   2

Comments:  ______________________________________________________________________________________________

____________________________________________________________________________________________________________

____________________________________________________________________________________________________________
II. DIAGNOSIS

1. Formulates appropriate differential diagnoses. N/A 0 1 2
2. Formulates appropriate nursing and medical diagnoses and/or rule outs N/A 0 1 2
3. Prioritizes nursing and medical diagnoses. N/A 0 1 2
4. Provides rationale (pathophysiology, psychosocial) for diagnoses formulated. N/A 0 1 2
5. Interprets test, procedure, and/or screening findings correctly. N/A 0 1 2
6. Identifies risk profile and prevention/counseling/screening needs appropriate to the situation. N/A 0 1 2

Comments: _________________________________________________________________________________________________
____________________________________________________________________________________________________________

III. MANAGEMENT

A. Therapeutics/Diagnostics

1. Prescribes appropriate pharmacological therapies (including drug and dose). N/A 0 1 2
2. Recommends/prescribes non-pharmacological therapies. N/A 0 1 2
3. Provides appropriate rationale for therapy. N/A 0 1 2
4. Demonstrates sound clinical judgment in determining the treatment plan. N/A 0 1 2
5. Orders additional diagnostic tests/procedures as appropriate. N/A 0 1 2
6. Initiates interventions for health promotion, prevention, maintenance, and/or restoration. N/A 0 1 2

Comments: _________________________________________________________________________________________________
___________________________________________________________________________________________________________

B. Education/Counseling

1. Provides appropriate education based on client learning needs. N/A 0 1 2
2. Provides mental health counseling based on client needs. N/A 0 1 2
3. Provides anticipatory guidance and counseling for growth and developmental needs throughout the life cycle. N/A 0 1 2

Comments __________________________________________________________________________________________________
____________________________________________________________________________________________________________

C. Follow-Up and Referral

1. Orders consults and referrals as indicated N/A 0 1 2
2. Designates follow-up as appropriate. N/A 0 1 2

Comments __________________________________________________________________________________________________
IV. PRESENTATION/DOCUMENTATION

27. Oral presentation is succinct, complete, and accurate. N/A 0 1 2
28. Written documentation is succinct, complete, and accurate N/A 0 1 2

Comments: _______________________________________________________________________________________________
_________________________________________________________________________________________________________

V. ROLE IMPLEMENTATION

29. Knows own limitations. N/A 0 1 2
30. Seeks and accepts constructive criticism. N/A 0 1 2
31. Presents a professional demeanor appropriate for clinical setting ie appearance, dress, behavior, and language. NA 0 1 2
32. Completes client encounter within designated time frame. N/A 0 1 2
33. Develops therapeutic rapport. NA 0 1 2

Comments: _______________________________________________________________________________________________

VI. SUMMARY COMMENTS: ______________________________________________________________

I. Assessment (Subjective & Objective Data) = 45% ___________
II. Diagnosis = 10% ___________
III. Management = 30% ___________
IV. Presentation/Documentation = 10% ___________
V. Role = 5% ___________

Total Points: ___________ = Final Grade ___________
