Delta Theta Chapter

2017 Nursing Research Symposium

Science and Health Innovation: Advancing Clinical Practice

Saturday, April 22, 2017

University of Texas at Arlington

PODIUM PRESENTATIONS FEATURING EXPERT FACULTY

Dr. Janet D. Pierce
Ph.D., APRN, CCRN, FAAN
Currently, Dr. Pierce’s research is focused on mechanisms for reducing cellular damage in traumatic brain injury and also diastolic heart failure.

Dr. Kaye Herth
Ph.D., R.N., F.A.A.N
Dr. Herth has extensive clinical, teaching, and administrative experience at several universities and in hospitals, hospices, and community health settings. Her pioneering research has focused on hope in those individuals with a chronic or terminal illness and the impact on their family/significant others, as well as on homeless families and children.

Dr. Mari Tietze
R.N., Ph.D
A champion at navigating the maze of health care information using informatics - the science of applying technology and data analysis to solve problems.
Why you should attend:

- Strengthen your understanding of translational research and its role in evidence-based practice
- Discover evidence-based interventions that can improve your patient outcomes
- Impress your peers and your management team by being the first to bring this fresh knowledge to their attention!
- Recharge your passion for research!
- Network with peers in research and education
- Engage with potential collaborators for your next project
