Sample Goals Statement for On-Campus RN to BSN and BSN Students

Online (Academic Partnership) students – your processes differ slightly from the on-campus program. Please refer to the syllabus for NURS-EL 3300 and NURS 4300

This is offered as a guide for you to develop your professional goals in the co-op program for the semester and should be associated with real opportunities that will be available in your position. (measurable and attainable goals)
It is not intended to be used for your own goals submission.

It is important to focus on the development of professional knowledge, skills and behaviors associated with the role of the BSN-prepared nurse.

SAMPLE:
My overall goal is to apply the knowledge and develop the skills of a BSN-prepared registered nurse.

My development in the role of the professional nurse will be demonstrated by achieving the following goals: (you will provide 3-5 goals and may use these as suggestion to develop your goals statement)
1. To develop professional knowledge and identify evidence-based practices in the care of my patients (list specific areas in which you will focus)
2. To provide comprehensive education to high risk patients and their family members regarding (list specific areas where you will seek to improve your knowledge)
3. To provide comprehensive education to patients with (list areas of patient care where you will work toward more comprehensive patient education)
4. To gain experience and strengthen advanced clinical skills such as (list those skills where you wish to improve)
5. Seek completion of certification in this area:
