OBJECTIVE:
The Graduate Certificate in Public Health Practice is designed to prepare students who complete the program to apply fundamental public health skills in their professional fields. Public health training in the five core public health disciplines may complement students' current job skills, or provide students with new professional public health knowledge and career opportunities.

PUBLIC HEALTH DISCIPLINES:
Biostatistics: KINE 5376 or KINE 5305
Epidemiology: KINE 5372
Environmental Health: KINE 5373
Social and Behavioral Health: KINE 5375
Health Policy & Health Management: KINE 5377

HOW TO APPLY:
Receive information via email.
Contact Dr. Erin Carlson at publichealth@uta.edu.
ADMISSION CRITERIA:

Official Transcripts showing an earned bachelor's degree from an accredited school, with a 3.0 or higher grade point average for the last 60 undergraduate or last 18 graduate credit hours completed.

A one page personal statement written in English describing the applicants interest in potential for contributing to public health, career objectives, and self assessment of abilities and preparation for succeeding in a public health graduate program.

Resume or CV, highlighting professional experience such as accomplishments, linguistic abilities, computer expertise, and analytics expertise.

No GRE Required.

PROGRAM REQUIREMENTS:

The curriculum is comprised of 15 graduate credit hours. There are 5 three-hour required courses, distributed among the 5 public health competency domains defined by the Council on Education for Public Health as biostatistics, epidemiology, social and behavioral health, health policy and management, and environmental health sciences.
