

# Chemistry 1441 Laboratory Syllabus

## Fall 2011

**Lab Coordinator** Bill Cleaver wcleaver@uta.edu  
Office Hours: Mon & Wed 9:00 – 10:00 in 114 CPB (and by appointment )

**Required materials:** *CHEM 1441 Lab Manual*, Fifth Edition (purple cover) and duplicating page lab notebook, both are available at the UTA Bookstore. Scientific calculator.

**Suggested Materials:** Additional graph paper and a Sharpie marker (for glassware marking) may come in handy.

**Safety Guidelines: IMPORTANT!** You will be exposed to hazardous chemicals in this class. Personal protective equipment (PPE) is necessary to protect your body. You will not be admitted into the lab if any of the following guidelines are not met. If you violate any of the following guidelines, you may be asked to leave the lab. All missed work will receive zero credit.

1. Goggles, gloves and aprons are provided and are required at all times.
2. Shoes that cover the entire foot are required at all times. Absolutely no exceptions will be made to this guideline. Warnings will not be issued.
3. Long pants and sleeves are highly recommended.
4. No musical or other entertainment devices may be used in chemistry lab at any time.
5. Cell phones are not permitted in lab and must be silenced and placed in your bag before you enter lab.

**Mandatory Online Safety Training:** Students registered for this course must complete the University's required "Lab Safety Training" prior to entering the lab and undertaking any activities. Students will be notified via MavMail when their online training is available. Once notified, students should complete the required module as soon as possible, but no later than their first lab meeting. Until all required Lab Safety Training is completed, a student will not be given access to lab facilities, will not be able to participate in any lab activities, and will earn a grade of zero for any uncompleted work.

1. You should have received an email from the UTA Compliance Department. Click on the link in the email (or navigate to <https://training.uta.edu> for the login page)
2. Log on using your network log-on ID and password (what you use to access email). If you do not know your NetID or need to reset your password, visit <http://oit.uta.edu/cs/accounts/student/netid/netid.html>.
3. The available courses for completion will be listed. For Chemistry 1441, complete the course entitled 'Student Lab Safety Training'
4. If you did not receive the training email and you have not already completed the training you will need to contact the training helpline (817-272-5100) or email [compliance@uta.edu](mailto:compliance@uta.edu).
5. Students who have not completed the training by census date may be dropped from the lab (and consequently the lecture).

Once completed, Lab Safety Training is valid for the remainder of the same academic year (i.e. through next August) for all courses that include a lab. If a student enrolls in a lab course in a subsequent academic year, he/she must complete the required training again.

**All questions/problems with online training should be directed to the University Compliance Services Training Helpline at 817-272-5100 or by emailing [compliance@uta.edu](mailto:compliance@uta.edu).**

## CHEM 1441 Lab Schedule

Week of:	Lab Schedule
Aug 25-26	No labs. Buy the lab manual and notebook in the bookstore. <u>Complete the online safety training.</u>
Aug 29-Sept 2	Lab Check-in, Lab & Safety orientation.
Sept 5-9	No Labs. Labor Day Holiday.
Sept 12-16	UTA-501: Mass and Volume Measurements
Sept 19-23	UTA-502: Separation of a Three Component Mixture
Sept 26-30	UTA-503: Formula of a Copper Oxide
Oct 3-7	UTA-504: Titration to Determine the Acid Content in Vinegar
Oct 10-14	UTA-505: Qualitative Analysis
Oct 17-21	UTA-506: The Ideal Gas Law and Gas Constant.
Oct 24-28	UTA-507: Hess's Law and Calorimetry
Oct 31-Nov 4	UTA-508: Synthesis of Tris-1,10-phenanthroline iron(II) chloride
Nov 7-11	UTA-509: Spectrophotometric Determination of Purity and Concentration
Nov 14-18	UTA-510: Atomic Emission Spectra
Nov 21-25	No Labs. Thanksgiving Break.
Nov 28-Dec 2	UTA-511: Chemiluminescence
Dec 5-9	UTA-512: Molecular Shapes by VSEPR. Lab Check-Out.
Dec 10-16	No labs. University Final Exams.

**Teaching Assistants (TAs):** Your TA's office hours will be announced in lab and will be posted outside of 114 CPB. You may attend the office hours of any 1441 TA.

**Grading:** The lab average, which comprises 25% of the Chemistry 1441 grade, is determined the following way:

Quizzes	30%
Pre-Lab Assignment	20%
Post-Lab Reports	40%
Notebook/Technique	10%

- **Quizzes:** There will be a quiz given at the beginning of every lab period. They will cover material and techniques used in experiments preceding and including that day's experiment. The quiz will only be given in the first 10 minutes of the lab period. Missed quizzes cannot be made-up.
- **The Pre-Lab Assignment** is due when you walk through the door. Each pre-lab is worth 100 points. Pre-labs will not be accepted more than 15 minutes after the beginning of the lab. Any student not completing the Pre-Lab assignment will not be permitted to perform that week's experiment.
- **The Post-Lab Report** is due when you walk through the door for the next lab meeting. The post-lab consists of completing all the calculations and answering the questions outlined in the lab manual as well as a one or two paragraph conclusion where you will analyze your experimental results. Each post-lab is worth 100 points. Post-labs are considered late 15 minutes into the lab period and will be assessed a point-penalty of 25 points per day. Reports will not be accepted more than two days late. Students are responsible for contacting their TA to deliver a late report. Please do not take them to the Chemistry Office or to the Lab Coordinator.
- **The Lab Notebook/Technique:** You will hand in the carbonless copy of your data, signed by your TA, at the end of the lab period. Failure to do so will be counted as a lab absence. Your TA will grade your lab notebook as well as your lab technique during the experiment.

All work, with the exception of computer-generated graphs, must be original and hand-written. Photocopied or computer-generated work will not be accepted.

Your lowest pre-lab grade, post-lab grade and quiz grade will be dropped. Additional missed labs will receive zero credit. Any zero resulting from Academic Dishonesty is not eligible to be the lowest grade dropped. Each experiment runs for one week and any conflicts should be addressed to your TA at least a week in advance of the conflict (including observing religious holidays). *There are no makeup labs once the week is over.*

Do not turn in a report for an experiment for which you were absent. This is considered cheating and will be addressed as such.

**Attendance Policy:** The following is from UT-Arlington Undergraduate Catalog's Academic Regulations section

#### **Class Attendance**

Class attendance and lateness regulations will be established by instructors and announced to their classes. At the discretion of the instructor, such regulations may or may not include provisions for making up work missed by the student as a consequence of an absence. Students who are late to class are responsible for reporting their presence to the instructor after the class is dismissed.

Information that stresses safety and technique is disseminated at the beginning of each lab period. Students are expected to be in the lab on time, and they will not be admitted to the lab more than 15 minutes after it begins. All missed work will receive zero credit. These 15 minutes are intended as a grace period for rare instances. It is not intended to become the norm. Abuse of this grace period will result in its cancellation.

You are required to attend lab in the section for which you have registered. Do not go to another lab section.

**Academic dishonesty:** UTA considers academic dishonesty a completely unacceptable mode of conduct, and the University will not tolerate it in any form. Academic dishonesty includes (but is not limited to) cheating, falsification of data, plagiarism, and contracting/collusion with others to do your test or do your work. Cheating is the use or acquisition of information (data, constants, formulas, textual material, etc.) from either unauthorized sources or in an unauthorized manner.

Following is a statement from the University policy on cheating. *"Students who violate University rules on scholastic dishonesty are subject to disciplinary penalties, including the possibility of failure in the course and dismissal from the University."*

**Students with Disabilities:** Students who need an accommodation based on disability should arrange to meet with the laboratory coordinator during to see that they are appropriately accommodated.

**Students with Pregnancies:** For students who are pregnant, it is recommended by the Chemistry and Biochemistry Dept. that you do not enroll into a chemistry lab at this time. If you become pregnant during the semester, we recommend dropping the course as soon as possible; and special provisions will be made to assist you in finishing the course at a later date. ***Please see your faculty instructor for assistance.***

*If you drop or fail Chemistry 1441, grades earned in the lab cannot be carried over when you re-take Chemistry 1441.*
