Location: Trimble Hall 014 (Computer Lab)

Speakers: Carly Sommerlot
& Mac Taylor

About CoLang

CoLang 2016 was held at University of Alaska Fairbanks this summer, which provided training in community-based **language documentation and revitalization** for community language activists and linguists. The Institute consists of two parts: two weeks of intensive workshops followed by a three-week Practicum in field linguistics in which students work hands-on with speakers of an endangered language. Instructors include some of the world's leading experts in language documentation.
