TOXIC ALGAE

The UTTER (Undergraduate Training in Theoretical Ecology Research) Program in the Departments of Mathematics and Biology at the University of Texas at Arlington invites qualified undergraduate students to apply for UTTER scholarships. The scholarships provide each program participant with a two-year financial support for a total of \$11,400. Undergraduate students with at least two years remaining to complete their B.S. degree will be considered.

For further information about the UTTER scholarships, prospective applicants may visit <http://www.uta.edu/math/utter> or contact:

Prof. Hristo Kojouharov (utter@uta.edu), UTTER program director
