

## Materials Camp for Kids

The UT Arlington Material Science and Engineering Department cordially invites elementary school kids to the 3<sup>rd</sup> Annual *Materials Camp for Kids* at UT Arlington. Come expose your mind to the exciting and fun world of science and technology.

### What will you do?

- **Observe atoms using an electron microscope (you could be the youngest kid to observe real atoms)**
- **View a gold-coated bug with magnification 30,000 times better than your eyes**
- **Make electricity**
- **Write your name with shiny and tiny particles**
- **Visit the UT Arlington Nanotechnology Facility**
- **Watch the stars at the state-of-art UTA planetarium**  
(<http://www.uta.edu/planetarium/>)

***Free pizza! Free T-shirt! Certificate of participation!***

**Date: Saturday, July 26, 2008, 8:30 AM to 5:00 PM**

**Cost: FREE!**

**Sponsors: National Science Foundation (NSF)**

**Department of Materials Science & Engineering  
and The College of Engineering (UT Arlington)**

**Target students: Students entering 4<sup>th</sup> and 5<sup>th</sup> grade**

**Number of students: Maximum 12 students**
