The University of Texas at Arlington

2008 Computer Security Conference

Join us and learn more on how you can protect your sensitive information and your identity from the constant attack of online criminals.

The University of Texas at Arlington provides an annual conference on methods and practices of safe computing and information security. Our audience is diverse in their knowledge of computing including everyone from experts in the field to the novice who wants to learn more on how they can be secure online. In response to the ever increasing use of social networking sites, internet communications and online education, this year's topic is "Securing Your Electronic Self". Wednesday, October 1st 2008, 8AM-4PM E.H. Hereford University Center at UT Arlington. Register at www.uta.edu/security

We have some great speakers this year which include computer security specialists from the FBI, City of Fort Worth, City of Arlington, Arlington ISD, Plano ISD, Texas State University, TWU, TCU, UT Arlington, VMware, and Secure Network Technologies. There will also be some wonderful **PRIZES** that will be raffled during the conference to our participants. Don't Miss Out!!!!

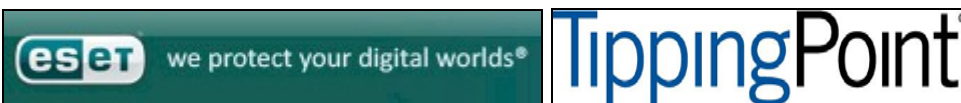

This Event is Free Thanks to Our Sponsors!

Location: E.H. Hereford University Center (300 W. First St. Arlington, Texas)
 Check in is in the Bluebonnet Hall. The entrance is on the North Side of the building across from Parking Lot 38 (as seen on map). Parking for this event is in Parking Lot 40. Garage parking is available but will not be reimbursed. Check in 7:30 – 8:45AM. Must register www.uta.edu/security. Free for UT Arlington faculty, staff & students.
