To: All Deans, Directors, Chairpersons, Faculty and Supervisors:

The University of Texas at Arlington is committed to providing its employees, students, and visitors with a safe environment in which to learn and work. Safety is the responsibility of everyone in our campus community and can be achieved through proper engineering, education, training, protective equipment, and enforcement of safety rules. Each student and employee is responsible for understanding and practicing appropriate safety procedures for his or her own protection and to protect others.

All deans, directors, department heads, chairpersons, faculty and supervisors must take an active role in the University's safety program by initiating preventive measures to control hazards associated with activities under their direction. This Safety Manual has been developed by the Environmental Health & Safety Office to assist you in achieving that mission.

It is your positive safety attitude, your knowledge of safety procedures, and your actions that will determine the success of our safety program.

James D. Spaniolo
President
