Distance Education Technologies

Blackboard (elearn.uta.edu)

Blackboard is the campus Learning Management System (LMS). Every course-section and their respective student enrollments are automatically populated into Blackboard daily. Blackboard can be used to teach a fully online course or as a rich supplement to the traditional classroom. Log in with your UTA NetID.

Adobe Connect

Adobe Connect is an online tool that allows live, virtual presentations. Share your computer's display with your students or ask your student to share their desktop with you. Communicate via voice, chat, and even webcam video with voice. Conduct office hours, test reviews, and much more within this online format.

Blogging

Weblogs are being used by students and faculty as course journals, diaries, and many other creative applications for either public or private viewing. <http://blog.uta.edu>

CDE Services

Training: Distributed Education, Blackboard & Other Technologies

CDE provides general training for many online education tools (i.e. Blackboard, Adobe Connect, Blogging, etc.) to University faculty and staff. Please visit www.uta.edu/blackboard and navigate to the Blackboard Workshops for Faculty page for a calendar of Blackboard workshops. You can also e-mail cdetraining@uta.edu for more information.

Blackboard Support

If you are a faculty member already working with the CDE and have questions, please e-mail cdesupport@uta.edu or contact us at 817.272.5727.

CDE-Developed Courses & Programs

CDE works with selected UT Arlington faculty to develop and deliver award winning Internet-based courses.

Distance Education Programs

UT Arlington is a leader in providing distance education, technology- and Internet-based instruction to learners throughout Texas and around the world.

Our newest online degree offering is the Bachelor's Accelerated Completion (BAC), but you can also work toward a UT Arlington degree in: Criminology and Criminal Justice, Business Administration (M.B.A.), Public Administration (M.P.A.), Education, Nursing, and Engineering.

Numerous individual classes are also available online, and many on-campus courses also have significant Internet-based components through Blackboard, offering flexibility to UT Arlington learners in the Dallas-Fort Worth area.

UT Arlington is lead participant in the University of Texas Online Consortium (www.utcoursesonline.org) which serves as a gateway to many of the graduate and undergraduate online degree programs and courses from University of Texas System institutions. Available offerings include collaborative degree programs among multiple UT campuses, single-campus degree programs, and a wide array of graduate and undergraduate courses open for registration by students enrolled at any UT institution.
