
Undergraduate Research Assistant Application for Dr. Perry Fuchs

Thank you for having an interest in the neuroscience lab. Dr. Fuchs and his graduate students are looking for dedicated, motivated, and detail oriented undergraduate students to assist with research and various lab duties. If accepted, you will register for a 3 credit hour research class through Dr. Fuchs. You will be expected to work a minimum of 9 hours per week, but we highly recommend that you work more so that you can take full advantage of the opportunity. You will be trained in various behavioral neuroscience techniques. Primary responsibilities include assisting with everyday lab maintenance, histology, data entry, scoring data, behavioral testing, and surgical assistance. As you learn, the responsibilities given to you will grow, which can lead to more opportunities in the future.

This is a great opportunity for future grad students!
