

Lecture:

Instructor: Dr. Martha Mann
Classroom: 118 LS (Lecture); 318 LS (Lab)
Class hours: M W 1:00-2:20 pm
(See individual lab sections for lab meeting times.)

Lab coordinator:

Coordinator: Susan Autrey
Classroom: LS 318
Class hours: (supervising all sections)
Email: sautrey@uta.edu
Office/phone & hrs: LS 507 817.272.2281 Hrs: M 2:30-3:30 PM
Campus mailbox: 19528

Contact information for Dr. Mann:

Email: mann@uta.edu
Office: LS 303
Office phone: 817.272.3239
Office hours: T 10-11 am W 2:30-3:30 pm and by appointment
Campus mailbox: Box 19528

Your Lab Teaching Assistant:

Section:
Classroom: LS 318
Lab hours:
Email address:
Office/phone & hrs:
Campus Mailbox: 19528

Lab: Five (5) lab sections are available. You must be registered in lecture (PSYC 2444-001 and a lab section (PSYC 2444-002, 003, 004, 005, or 007) concurrently. Please see the **lab schedule** for further information.

Required resources (You just bring the Jackson text to lecture and lab): (These texts are the same as those required previously for PSYC 2443. Retain these texts for this course and advanced electives.)

- Jackson, S. L. (2006). *Research methods and statistics: A critical thinking approach* (2nd edition). Belmont, CA: Thomson Wadsworth (ISBN: 0-495-28497-1)
- Kirkpatrick, L.A. and Feeney, B.C. (2007). *A simple guide to SPSS for Windows, Version 14.0*. Thompson Wadsworth. (ISBN: 0-495-31863-9)
- American Psychological Association (2001). *Publication Manual of the American Psychological Association* (5th edition). Washington, D.C.: APA. (ISBN: 1-557-98791-2)
- Szuchman, L.T. (2005). *Writing with style* (3rd edition). Belmont, CA: Thomson Wadsworth (ISBN: 0-534-63432-X)
- A non-programmable calculator and (minimum) a 3 inch, 3-ring binder
- **CPS Class Registration and response pad:** You **MUST** be registered with einstruction.com around January 15, 2008. If you are NOT registered for class, you will **NOT** be able to participate in attendance, class discussions, and sample test questions until you register (which will adversely affect your grade). **NO EXCEPTIONS!** It is recommended that you register with einstruction prior to the start of the spring semester (i.e., as soon as you register for the class). You can begin registration on www.einstruction.com at any time. Use **Class Key: M34671L112**. You will need to pay the full registration fee via credit card to register with e-instruction for the class. You **MUST** bring the response pad with you to class every class period. The response pad is a **mandatory** piece of course equipment; it will be used for attendance, and discussion questions. Not bringing a response pad to class will **NOT** be an acceptable excuse. This course will be computer/internet intensive. You do not need to own a computer to participate effectively in the class. However, you will need to access and use the computers available to you on campus (e.g., in the library) on a routine basis.

Required journal articles: Articles will be available on electronic reserve through WebCT.

Recommended (optional) resources:

- Jackson, S. L. (2006). *Study guide for research methods and statistics* (2nd edition). Belmont, CA: Thomson Wadsworth (ISBN: 0-495-00338-7).
- Gelfand, H., Walker, C. J., & American Psychological Association (2002). *Mastering APA style: Student's workbook and training guide* (5th edition). Washington, D.C.: APA. (ISBN: 1-557-98891-9)
- www.apastyle.org
- Huff, D. (1982). *How to lie with statistics*. W. W. Norton & Co., New York, New York. (ISBN: 0-393-09426-X)

Course description: PSYC 2444. RESEARCH DESIGN AND STATISTICS II (3-2) 4 hours credit. Theoretical and practical approaches to research methodology, statistical analyses and techniques of reporting research. **Prerequisite:** PSYC 2443.

Course goals: This course consists of learning a variety of methods and procedures commonly used to conduct psychological research, analyzing the data collected in such research, and communicating the research results to the scientific community. Specific goals as outlined in the **APA Assessment Cyberguide** are appended to this syllabus.

Assignments and exams:

Lecture: In-class exercises will be scheduled throughout the term. Three non-cumulative exams and attendance points (~60 multiple choice questions each for a total of 360 points and a total of 26 points for daily attendance, with days selected at random by the computer) and a total of 14 “perseverance points” for special assignments will be used to determine your performance in lecture (**400 points total**). Exam questions will be drawn from required reading, lecture material and class activities. If you are tardy on the day of the exam you will not be permitted to take the exam if any class member has completed the exam and left the room. All make-up exams will be given during the last lecture week of the course. (See the **lecture schedule** for exam dates.)

Lab: Exercises, research papers, and other assignments will be scheduled throughout the term. Unless otherwise instructed, all assignments must be typewritten and in compliance with APA formatting. (See the **lab schedule** for further details.) The portfolio requirements are described in detail in the Portfolio section of the syllabus. If a portfolio is received after the due date you will receive an incomplete (grade of X) for the course. In PSYC 2444, portfolio end-of-the-semester reviews with your teaching assistant are required. Major projects sum to 210 points. In addition, available points for chapter exercises will total 120. The remaining lab points will be computed from your scores on library assignments and in-lab exercises (70). Again, points for lab **total 400**.

Attendance:

Regular attendance is expected. Absentees will not be provided with lecture notes, outlines or other materials from classes missed. No make up exam will be given unless documentation is received for a University-approved absence. Absences that generally meet faculty standards include: severe illness; death in the immediate family; court appearances; and traffic delays that are unavoidable. Please see Important Notes below.

Make-up work: Make-up assignments and exams will be granted only for University-approved, documented absences.

Extra credit: No extra credit assignments will be offered during this course.

Tutoring: Tutoring (formerly known as the Statistics Clinic) is available for this course. Room: 429 LS.

Hours: Monday 8-12
 Tuesday 11-3
 Wednesday 8-11
 Thursday 11-2

Grading: You will receive one course grade for your combined performance in the lecture and laboratory. A total of 800 points—400 from lecture and 400 from lab—reflect a perfect score or 100%. We will be using embedded assessment techniques (you are *required* to turn in Drafts to receive credit for Final projects, failure to do so will result in a 0 for the final project; See the **lab schedule** for further details) throughout the course for 4 major evaluation projects including the portfolio project:

- Project 1: Manuscript (60 pts.)
- Project 2: Prospectus with concept map (20 + 20 = 40 pts.)
- Project 3: Proposal (70 pts.)
- Project 4: Portfolio (40 pts.)

Be sure to check the schedule below for interim evaluation dates! Be sure to check Web CT for examples of scoring rubrics!

Students must receive a passing grade (a “C”) in both lecture (278 points out of 400 possible points or 69.5%) and lab (278 points out of 400 possible points) to pass the course and become eligible to enroll in upper level psychology labs. Any student earning a “D” (199-238 points out of 200) or “F” (0-198 points out of 400) in the lecture OR in the lab will receive a “D” or “F” as the final course grade. (Please note that the last day to withdraw from this course is March 28.) Students who meet the minimum requirements of 278 points in BOTH lecture and lab will have their final course grades calculated by adding their lecture and lab points together and assigning final letter grades as follows:

<u>Letter Grade</u>	<u>Percentage of Points</u>	<u>Points required</u>
A	89.5-100.0%	716-800
B	79.5-89.4%	636-715
C	69.5-79.4%	556-635

Important notes: Review: Lab attendance is very, very important. You must attend every lab meeting. The information you receive in the lab sections is necessary to aid you in writing papers and doing homework assignments. Lab attendance is crucial. There will be a total of 26 points (2 points per day) allotted for daily attendance beginning the 2nd week of lab.

1. Assignments are due at the beginning of lab within the first 10 minutes of lab.
2. If you are more than 10 minutes late, *the assignment will be considered late and you will be counted as absent.*
3. Five points/day (i.e. each 24-hour period) will be deducted from your final score for any project that is received late. *If you hand in an assignment late (i.e. after the first 10 minutes of lab), five points will be deducted for that day and each day thereafter.*

From the UT Arlington Undergraduate Catalog: Student Grievance Procedures Related to Grades: In attempting to resolve any student grievances regarding grades, it is the student's obligation first to make a serious effort to resolve the matter with the individual with whom the grievance originated. Individual course instructors retain primary responsibility for assigning grades. The instructor's judgment is final unless compelling evidence shows discrimination, preferential treatment or procedural irregularities. For further information see:

<http://www.uta.edu/catalog/general/academicreg>

Important dates:

January 30:	Census Date
March 7:	Midterm (or Mid-session)
March 17-21:	Spring vacation
March 28:	Last day to drop courses with an automatic 'W'
May 1:	Last day of classes (NB: Portfolio reviews will be completed this week.)

Student Support Services:

- **Computers** in LS 318 are available for your use on weekdays 8 am-5 pm when classes are not being held in that room.
- **Library information** can be obtained through Helen Hough, Psychology Librarian. Please contact her by phone (817.272.7429) or by email (hough@uta.edu). You will find useful information for psychology at <http://www.uta.edu/library/research/rt-psyc.html>
- **Other** services can be obtained from the University. The University supports a variety of student success programs to help you: learning assistance, developmental education, advising and mentoring, admission and transition, and information about federally funded programs. Students seeking assistance with academic, personal or social problems should contact the Office of Student Success Programs at 817.272.6107.

Drop for non-payment of tuition: If you are dropped from this class for non-payment of tuition, you may secure an Enrollment Loan through the Bursar's Office. You may not continue to attend class until your Enrollment Loan has been applied to outstanding tuition fees.

Academic Integrity: It is the philosophy of The University of Texas at Arlington that academic dishonesty is a completely unacceptable mode of conduct and will not be tolerated in any form. All persons involved in academic dishonesty will be disciplined in accordance with University regulations and procedures. Discipline may include suspension or expulsion from the University.

"Scholastic dishonesty includes but is not limited to cheating, plagiarism, collusion, the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts." (Regents' Rules and Regulations, Series 50101, Section 2.2)

Americans with Disabilities Act: The University of Texas at Arlington is on record as being committed to both the spirit and letter of federal equal opportunity legislation, reference to Public Law 93112—The Rehabilitation Act of 1973 as amended. With the passage of federal legislation entitled, Americans with Disabilities Act (ADA), pursuant to section 504 of the Rehabilitation Act, there is renewed focus on providing this population with the same opportunities enjoyed by all citizens. As required by law, we will provide reasonable accommodations to students with disabilities, so as not to discriminate on the basis of that disability. However, the student is responsible for informing faculty at the beginning of the semester of a disability requiring special accommodation and providing authorized documentation through designated administrative channels.

Bomb threats: If anyone is tempted to call in a bomb threat, be aware that UTA will attempt to trace the phone call and prosecute all responsible parties. Every effort will be made to avoid cancellation of presentations or tests caused by the bomb threat. Alternate sites will be available for these classes. Your instructor will make you aware of alternate class sites in the event that your classroom is not available.

E-Culture Policy. The University of Texas at Arlington has adopted the University email address as an official means of communication with students. Through the use of email, UT-Arlington is able to provide students with relevant and timely information, designed to facilitate student success. In particular, important information concerning registration, financial aid, payment of bills, and graduation may be sent to students through email. All students are assigned an email account and information about activating and using it is available at www.uta.edu/email. New students (first semester at UTA) are able to activate their email account 24 hours after registering for courses. There is no additional charge to students for using this account, and it remains active as long as a student is enrolled at UT-Arlington. Students are responsible for checking their email regularly. *In this course, please communicate with the instructor and teaching assistants by WebCt.*

PSYC 2444 Lecture Schedule

Lab schedule

Wk	Date	Lecture Topic	Instructor	Reading Assignments	Date:	Lab Exercises/Assignments	Assignment Due
1	M 1/14	Course overview Review of 2443 Exam 3 Using the library	Mann Hough	Szuchman Ch. 1		Review APA format Review SPSS skills Library assignment 1: Checking citations	Sign in to WebCt Online plagiarism quiz (10 pts.) http://library.uta.edu/tutorials/Plagiarism/
	W 1/16	Developing a design Design decisions	Mann				
2	M 1/21	Martin Luther King Jr.'s Birthday (observed) – No class		Jackson Ch. 7 (review) and Ch. 8		Library assignment 2: Choosing and narrowing topics for proposals Concept mapping for manuscripts and proposals In-class experiment: random assignment to groups	Library assignment 1 (20 pts.)
	W 1/23	Between groups designs	Mann	Jackson Ch. 8 pp. 175-177 SPSS Ch. 8			
3	M 1/28	Validity, Control & Confounds T tests for 2 independent samples	Mann	Jackson Ch. 8 pp.178-186 Jackson Ch. 9 pp. 196-202 Szuchman Ch. 2 and 3		Confound exercise 1 and 2 In-class brainstorming exercise: Finding topics Poetry contest (due week 6)	Library assignment 2 (10 pts.)
	W 1/30	T tests continued					
4	M 2/4	Within groups designs Matched participants Developmental designs	Mann	Jackson Ch. 8 pp.186-190 Jackson Ch. 9 pp. 202-208 Jackson Ch. 8 pp. 191-193		Class experiment: planning Class experiment: gathering data SPSS: t-tests: one and two tailed SPSS check of in-class data	Ch. 8 exercises #2, 4, 6 and Ch. 9 exercises # 2, 4 (32 pts.) In-class experiment (10 pts.) Practice concept maps
	W 2/6	T test for 2 dependent samples		Jackson Ch. 9 pp. 202-208 SPSS Ch. 9			
5	M 2/11	Review for Exam #1	Mann	Worksheet: Between and within designs Review Jackson Ch. 7, 8, and 9 and SPSS Ch. 8, 9		Review psychology department/ faculty web pages Writing the prospectus Exam #1 (WP part 2)	Portfolio review 1
	W 2/13	Exam #1 (MC part 1)	Mann				

Learning Objectives Module 1: At the end of this module, students should be able to:

- (1) Explain between- and within-groups designs and compute the appropriate *t* statistic for each.
- (2) Describe various types of confounds and the means for controlling or minimizing effects of confounds.
- (3) Differentiate between experimenter effects and participant effects and how the design of experiments relates to these concepts.
- (4) Explain and use random assignment; demonstrate use of a random number table

N.B. Learning objectives were adapted from Jackson, S. L. (2006). *Study guide for research methods and statistics* (2nd edition).

Wk	Date	Lecture Topic	Instructor	Reading Assignments	Date:	Lab Exercises/Assignments	Assignment Due
6	M 2/18	Mixed and complex designs	Mann	Jackson Ch. 10 pp. 211-219 Szuchman Ch. 4,5,6,and 8		Class experiment: preparing the manuscript Class experiment: managing and analyzing data	Quiz: Psychology department/ faculty web pages (10 pts.) Prospectus with concept map draft 1 (20 points)
	W 2/20	ANOVA part I		Jackson Ch. 10 pp. 216-224 SPSS Ch. 10 and 12			
7	M 2/25	ANOVA continued	Mann	Jackson Ch. 10 pp. 224-226 SPSS Ch. 11		Reading the ANOVA table SPSS: ANOVA Jackson Ch. 10 and 11 exercises # 10 as examples	Manuscript draft 1 Data summary and analysis
	W 2/27	Factorial designs Understanding interactions	Mann	Jackson Ch. 11 pp. 241-248 SPSS Ch. 13			
8	M 3/3	ANOVA part II Repeated measures	Mann	Jackson Ch. 10 pp. 229-236 Jackson Ch. 11 pp. 249-260 See Jackson chapter on proposal writing (Ch. 14)		Writing the proposal	Jackson Ch. 10 exercises # 2, 6, 8, 12, 14 (40 pts.) Jackson Ch. 11 exercises # 2, 4, 6, 12 (24 pts.)
	W 3/5	Effect size		Jackson Ch. 11 pp. 256-257 Szuchman Ch. 7			
9	3/10	Review for Exam # 2	Mann	Review Jackson Ch. 10, 11 And SPSS Ch. 10, 12, 13		Review chapter exercises SPSS: Review ANOVA Exam #2 (WP part 2)	Prospectus and concept map final draft (20 points) Portfolio review 2
	3/12	Exam # 2 (MC part 1)					
10	3/17-3/21	Spring vacation---No classes; no labs					

Notes: 1. ACES (Annual Celebration of Excellence by Students) Symposium on campus TBA (see WebCT and Graduate School Web pages)

Learning Objectives Module 2: At the end of this module, students should be able to:

- (1) Explain the costs and benefits of using designs with more than 2 levels of an independent variable.
- (2) Identify designs that use ANOVA, compute one-way randomized and repeated measures ANOVA and interpret results.
- (3) Describe effect size and compute and interpret Cohen's *d*.

Learning Objectives Module 3: At the end of this module, students should be able to:

- (1) Describe statistical techniques for planned and post hoc comparisons; compute Tukey's post hoc test and interpret results
- (2) Explain what quasi designs are and when and how they are used.
- (3) Review surveys and sampling methods; review case studies and their value for psychology.
- (4) Describe the career paths of those majoring in psychology and the occupational opportunities that will exist in the future.
- (5) Identify the elements of proposal writing and compare components to the manuscript.

Wk	Date	Lecture Topic	Instructor	Reading Assignments	Date:	Lab Exercises/Assignments	Assignment Due
11	M 3/24	Planned and post hoc comparisons	Mann	Jackson Ch. 10 pp. 226-228 Szuchman Ch. 11		Poster and paper presentations Students will attend ACES 3/28	Manuscript final draft (60 pts.) Proposal draft 1
	W 3/26	Elements of proposal writing Quasi designs		Jackson Ch. 12 pp. 264-272			
12	M 3/31	Key experiments Analysis of quasi designs	Mann	Jackson Ch. 12 pp. 272-273		Designing a survey Exercise: Barry Schwartz: Review of survey items	Poetry contest due (7 pts. lecture)
	W 4/2	Surveys and sampling Analysis of survey designs	Mann	Review Jackson Ch. 4 pp. 74-85			
13	M 4/7	Surveys and sampling Key experiments	Mann	Jackson Ch. 4 pp. 74-85 Handout: WebCt		Proofing and editing the proposal Designing a crossword puzzle study guide	Jackson Ch 12 exercises # 2, 4 (modified), 6, 8 (24 pts.) Critique of ACES paper (10 pts.)
	W 4/9	Case studies	Mann	Jackson Ch. 12 pp. 273-280			
14	M 4/14	Professional development Graduate study part 2	Mann	Handout: WebCt		Review chapter exercises Resumes and vitae	Proposals final draft (70 pts.)
	W 4/16	Majoring in Psychology Careers in Psychology	Wolf Mann	Handout: WebCt: community service learning			
15	M 4/21	Review for Exam # 3	Mann	Review Jackson Ch. 10, 12, 4		Exam #3 (WP part 2)	Portfolios review final due (40 pts.) Crossword puzzles due (7 pts. lecture)
	W 4/23	Exam # 3 (MC part 1)	Mann				
16	4/28-5/2	Portfolio reviews all week by appointment: Write your appointment time here! All make up exams: Write your make up date and time here!					

Instructor: Martha Mann, Ph.D. (mann@uta.edu)

Requirement: Once again, you are required to keep a portfolio of all course work. You need to prepare a NEW portfolio for this semester (although you may wish to refer back to last semester's portfolio for important information). An important aspect of the portfolio this semester will be your documentation of your research ideas as they develop over time. This means that your journaling should comprise, in part, a "research journal" where you can explore potential topics for the required research proposal and/or make notes about research ideas that you wish to develop further by working with one or more members of the psychology faculty.

Recall: According to **APA's Assessment Cyberguide for Learning Goals and Outcomes**, portfolios have a strong potential for achieving certain learning outcomes: "Explicit criteria that ask students to select "works" based on what these reveal about their research skills can provide an opportunity to evaluate the evolution of their abilities through a focused reflection on why they selected the items they did." This point is an important one when we consider your choice of an individual research project.

Q. What is a portfolio?

A. A portfolio is a collection of papers, projects, and assignments completed in classes required in the psychology major. For the student, the portfolio represents a record of development in skills and competencies required in the major. It also represents a record of accomplishments which can be used to support applications for employment and graduate school. For the faculty, the portfolio is a source of information to determine whether the goals of the psychology curriculum are being attained.

Q. What is the purpose of keeping a portfolio?

A. A course portfolio serves primarily 3 functions:

1. A portfolio is an opportunity to integrate your notes, the text, lab assignments and other material, therefore providing an effective **study method**. Thus, you may reinforce and further develop your writing and computer skills. You are expected to retain at least information from earlier courses to later courses. In fact, by obtaining a GPA of 2.0 in PSYC 2443 and 2444, you can be cleared to enroll in upper-level laboratory courses. A course portfolio may be a very valuable resource for your future coursework.

2. A portfolio stands as an **historical record** or documentation summary of some of the content that you learned in the course. This record may help you obtain admission to the graduate program of your choice in that it may help you to write your personal statement or essay for graduate admission. It may also help you convince a potential employer of your readiness for a particular job.

3. Portfolio preparation may help you to **know yourself better** and to define more clearly your personal and professional goals. Part of your portfolio will consist of reflective journaling, that is, writing down your ideas and reactions to assignments and evaluations. Except for weeks in

which exams occur, we expect you to make notes weekly. Weekly notations should be made on your reflections upon your experiences as a pre-professional. Obviously, such reflective thinking may assist you in defining your strengths, weaknesses and career aspirations.

Q. How will my portfolio be evaluated?

A. The rubric we will be using to evaluate the portfolio is provided below. You will receive the final grade you attained on this assignment but interim grades (see **1** and **2** below) will be provided as the course proceeds.

Presentation of Portfolio (See also Week 16)

Scoring level	Action	1	2	F
16-20--accomplished	Student maintained all assignments carefully and organized the portfolio well.			
11-15--competent	Student showed good effort toward organization and presentation of the portfolio.			
6-10--developing	Student's course portfolio was only fairly complete and reflective journaling was not done consistently.			
1-5--beginning	Student exhibited minimal attention to portfolio organization and presentation. Multiple assignments were omitted.			
0	(Incomplete)			

Additional comments:

Score = /20

Student certification: I have reviewed the above scores and comments with my instructor.

Adapted from APA's Assessment Cyberguide for Learning Goals and Outcomes:

In PSYC 2443 and 2444, we will be addressing multiple goals as outlined below by the American Psychological Association (APA).

KEY:

PRE	Prerequisites
LEC	PSYC 2443/2444 Lecture and readings
LAB	PSYC 2443/2444 Lab and readings
EXA	PSYC 2443/2444 Examinations
POR	PSYC 2443/2444 Portfolio

Goal 1: Knowledge Base of Psychology

Demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.

Objective	PRE	LEC	LAB	EXA	POR
1.1: Characterize the nature of psychology as a discipline.	√	√	√	√	√
1.2: Demonstrate knowledge and understanding representing appropriate breadth and depth in selected content areas of psychology: theory and research representing general domains, the history of psychology, relevant levels of analysis, overarching themes, and relevant ethical issues.	√	√	√	√	√
1.3: Use the concepts, language, and major theories of the discipline to account for psychological phenomena.	√				
1.4: Explain major perspectives of psychology (e.g., behavioral, biological, cognitive, evolutionary, humanistic, psychodynamic, and sociocultural).	√				

Goal 2: Research Methods in Psychology

Understand and apply basic research methods in psychology, including research design, data analysis, and interpretation.

Objective	PRE	LEC	LAB	EXA	POR
2.1 Describe the basic characteristics of the science of psychology.	√	√	√	√	√
2.2 Explain different research methods used by psychologists. Describe how various research designs address different types of questions and hypotheses. Articulate strengths and limitations of various research designs. Distinguish the nature of designs that permit causal inferences from those that do not.		√	√	√	√
2.3 Evaluate the appropriateness of conclusions derived from psychological research. Interpret basic statistical results. Distinguish between statistical significance and practical significance. Describe effect size and confidence intervals. Evaluate the validity of conclusions presented in research reports.	√	√	√	√	√

2.4 Design and conduct basic studies to address psychological questions using appropriate research methods. Locate and use relevant databases, research, and theory to plan, conduct, and interpret results of research studies. Formulate testable research hypotheses, based on operational definitions of variables. Select and apply appropriate methods to maximize internal and external validity and reduce the plausibility of alternative explanations. Collect, analyze, interpret, and report data using appropriate statistical strategies to address different types of research questions and hypotheses. Recognize that theoretical and sociocultural contexts as well as personal biases may shape research questions, design, data collection, analysis, and interpretation.		√	√	√	√
2.5 Follow the APA Code of Ethics in the treatment of human and nonhuman participants in the design, data collection, interpretation, and reporting of psychological research.		√	√	√	√
2.6 Generalize research conclusions appropriately based on the parameters of particular research methods. Exercise caution in predicting behavior based on limitations of single studies. Recognize the limitations of applying normative conclusions to individuals. Acknowledge that research results may have unanticipated societal consequences. Recognize that individual differences and sociocultural contexts may influence the applicability of research findings.		√	√	√	√

Goal 3: Critical Thinking Skills in Psychology

Respect and use critical and creative thinking, skeptical inquiry, and, when possible, the scientific approach to solve problems related to behavior and mental processes.

Objective	PRE	LEC	LAB	EXA	POR
3.1 Use critical thinking effectively.	√	√	√	√	√
3.2 Engage in creative thinking.	√	√	√	√	√
3.3 Use reasoning to recognize, develop, defend, and criticize arguments and other persuasive appeals.	√	√	√	√	√
3.4 Approach problems effectively.	√	√	√	√	√

Goal 4: Application of Psychology

Understand and apply psychological principles to personal, social, and organizational issues.

Objective	PRE	LEC	LAB	EXA	POR
4.1 Describe major applied areas of psychology (e.g., clinical, counseling, industrial/organizational, school, health).	√	√	√	√	√
4.2 Identify appropriate applications of psychology in solving problems, such as...	√	√	√	√	√
4.3 Articulate how psychological principles can be used to explain social issues and inform public policy.	√	√		√	
4.4 Apply psychological concepts, theories, and research findings as these relate to everyday life.	√	√	√	√	√
4.5 Recognize that ethically complex situations can develop in the application of psychological principles.	√	√	√	√	√

Goal 5: Values in Psychology

Value empirical evidence, tolerate ambiguity, act ethically, and reflect other values that are the underpinnings of psychology as a science.

Objective	PRE	LEC	LAB	EXA	POR
5.1 Recognize the necessity for ethical behavior in all aspects of the science and practice of psychology.	√	√	√	√	√
5.2 Demonstrate reasonable skepticism and intellectual curiosity by asking questions about causes of behavior.	√	√	√	√	√
5.3 Seek and evaluate scientific evidence for psychological claims.	√	√	√	√	√
5.4 Tolerate ambiguity and realize that psychological explanations are often complex and tentative.	√	√	√	√	√
5.5 Recognize and respect human diversity and understand that psychological explanations may vary across populations and contexts.	√	√	√	√	√
5.6 Assess and justify their engagement with respect to civic, social, and global responsibilities.	√	√	√	√	√
5.7 Understand the limitations of their psychological knowledge and skills.	√	√	√	√	√

Goal 6: Information and Technological Literacy

Demonstrate information competence and the ability to use computers and other technology for many purposes.

Objective	PRE	LEC	LAB	EXA	POR
