

Welcome to UTARI!

For all new students and staff that need to have access to work in UTARI laboratories, please be advised that you will be required to attend a set of safety training classes before you are granted access to labs. The safety training course has **two parts**. **For the first part of training**, you must follow this Link:

<https://uta-ehs.org/>. **You must use a UTA Computer**. You will be required to login.

1. Complete the online course “Hazard Communication and Waste Management – Non-Academic Chem100”. **Once you have completed this training**, Please email a copy of the certificate, including your full first and Last name, your 1000 number on you ID card, and your Net ID to: ron.laposa@uta.edu, indicating the date and time you completed this training.

Note: If you encounter problems logging in or completing this course.

New Employees

Or anyone who has never completed any EH&S safety training courses in the past, should log in and create an account with their UT Arlington email address. Please fill in all the profile information.

Current Employees

If you have been on the authorized driving list or taken any of our safety training courses before, your previous training dates have been loaded into this system, and the site will already have an account for you. When you go there to sign in, choose the "**Click here to retrieve your log-in information**" button and it will send you a temporary password associated with your email address so you can log in (you must use a UT Arlington email address). Then enter your profile information and you will be able to reset the password to one of your choice.

The courses are listed under “Online Courses.” Just choose the course title and click “register”.

If you still encounter problems logging in or completing this course. Send an email including your full first and Last name, your ID card number and your Net ID to: ruiz@uta.edu of UTA Environmental Health & Safety office and they will help you.

(Continued next page)

2. **For the Second part of training.**

Ron LaPosa (ron.laposa@uta.edu) and Dave Manivanh (david.manivanh@uta.edu) will be conducting lab site training at UTARI.

Training is scheduled at least once per month. You must attend this

training also for card access to the UTARI Labs – **Please RSVP**

. Additional dates by Email

request. Current Training Date for 2018 is:

Sept 14 9:30 AM

****You will be meeting in the Atrium near the Café****

For any questions regarding safety training please contact ron.laposa@uta.edu.

Or any questions regarding in-processing please contact evenita@uta.edu.
