YOUR ON-CAMPUS CHOICE FOR HEALTH CARE

The University of Texas Arlington Health Services is an outpatient facility open during the academic year, Monday through Friday. We offer quality health care services to the UTA community. Our goal is to be your first stop on campus for those times you are not feeling well or have a health care need.

Services available include a general medical clinic, mental health services, women’s health, pharmacy, laboratory, x-rays, immunizations, health promotion, substance abuse prevention and student health insurance.

We are conveniently located on-campus, between the University Center and the Business Building.

605 S. West Street
(Corner of Third and West)
Box 19329
Arlington, Texas 76019

Hours of Operation

Health Center:
Monday - Friday
8:00 a.m. - 5:00 p.m.

Pharmacy:
Monday - Friday
8:30 a.m. - 5:00 p.m.
(May be closed one hour for lunch)
We are committed to listening to your concerns, understanding your needs and working with you to develop an appropriate treatment plan.

**What is the Women’s Health Clinic?**

Our Women’s Health Clinic is staffed by Nurse Practitioners with specialized training in women’s health. We offer cost effective, accessible and confidential care to women on campus through women’s health education, care and counseling by appointment.

**How much does it cost?**

Visits to Health Services are already included in flat-rate tuition. Ancillary services such as Women’s Health are accessed additional fees but are at a greatly reduced cost when compared to the off-campus community.

Patients are not required to have insurance to receive treatment at Health Services; however, we do recommend enrolling in the student health insurance plan.

Please contact us if you have any questions regarding the cost of exams and/or procedures.

**Confidentiality**

Our staff has created a comfortable setting to share your personal concerns. The information you share becomes part of your confidential medical record. Signed authorization from the patient is required before any information is released to anyone other than the patient. Additionally, all Health Services employees are trained to prevent breaches of confidentiality.

**Scheduling an Appointment**

Please contact our appointment staff at (817) 272-2771 Monday - Friday from 8 a.m. to 5 p.m. Please indicate what service(s) you wish to be seen for. This will ensure you are scheduled for the appropriate consultation.

**Available Services**

**Women’s Health Education**

- A weekly class is offered for preparation for women desiring their first Pap test. (The American College of Obstetricians and Gynecologists recommends that Pap testing should begin at age 21 years.)
