Turn Off the Pop up blocker for all browsers

1. Access the Google Chrome menu on the toolbar. The menu on the toolbar is at the top right of your browser.
2 Choose "Settings."
3 Find "Show advanced settings" at the bottom of the page and click it.
4 Under "Privacy," click on "Content settings."
5 In the "Pop-ups" section, choose "Allow all sites to show pop-ups."
6. If you want to choose which websites to allow and still keep the blocker functionality, under the Pop-ups section, choose "Manage exceptions" instead. Write down a list of websites you don't want Chrome to automatically block.
2 Select "Preferences."
3 Navigate to the Content tab.
4 On the first option, uncheck the "Block pop-up windows" box. This will disable the popup blocker function.
If you want to choose which websites to allow and still keep the blocker functionality, to the right, choose “exceptions” instead. Write down a list of websites you don't want Firefox to automatically block.
1. Open a Safari browser and click on the Safari drop-down menu in the menu bar (the image shows a gear icon, but that was for older versions of Safari).
2 From the dropdown menu, select "Preferences."
3 Once in Preferences, go to the Security tab.
4 Uncheck the option "Block pop-up windows" to disable the functionality.

5 You cannot manage exceptions in Safari. You either block all websites from displaying popups or none at all.
1. Open Internet Explorer and click on the Tools button.
2. Click on "Internet options".
3 Click Turn Off Pop-up Blocker to disable the functionality.
If you want to choose which websites to allow and still keep the blocker functionality, click "Pop-up Blocker Settings" instead. Write down a list of websites you don't want Internet Explorer to automatically block.
