Create Requisition MAV eShop for Requesters
Mav eShop Overview
What is MAV eShop?

A web-based purchasing system that allows UTA employees to buy goods more efficiently and economically.

- Connects directly to UTShare’s create requisition page.
- Offers end-users a shopping cart experience designed to make day-to-day purchases easier.
- Shop online from a variety of contracted and approved vendors.
- Ensures the best overall value and streamlines the buying process.
- Retains purchase history.
Methods for Requesting Goods or Services

MAV eSHOP (SciQuest)
- Shopping marketplace that contains links to online shopping sites for vetted suppliers with whom UT System or UTA has negotiated items and prices.

ProCard
- The ProCard is used to purchase goods or services for low-cost items ($4,000 or less) that do not exist in MAV eSHOP.

Non-PO Voucher
- Some purchases of goods and services may not require a purchase order. See the BF-PGS-PR-01 Best Value Purchasing Procedures (Section IV “Procedure”, Article H “Purchase of Goods/Services Not Requiring a Purchase Order”) for the list of goods and services that do not require a purchase order.

Special Request (Non-Catalog Items)
- The Special Request form in UTShare is used to request goods or services that do not exist in MAV eSHOP and are not eligible to purchase with a ProCard.
Things to know...

- Since contracted suppliers are being used, support (pricing) documentation is not required.

- Buyers in Procurement will not see Purchase Orders (POs) less than $100K. After the approvals are received, Requisitions less than $100K are automatically sourced into a PO and dispatched to the vendor to be fulfilled.

  **Note:** POs are sourced and dispatched every 2 hours (odd hours 7, 9, 11, etc.)

- PO Vouchers are automatically created, matched, budget-checked, and approved for MAV eShop purchases.
Shopping Cart Process
The Shopping process differs depending on the employee’s role.

- **Shopper** – The primary role all UTA employees have
- **Requester** – Requires level II or III access in UTShare

The Shopping cart contains the items selected for Purchase and the details such as:

- Description
- Quantity
- Price
Shopping Cart Process

Managing Requisitions
Manage Requisitions

General Information

• The Manage Requisition page is used to search for an existing Requisition or Purchase Order (PO). Also, it displays the different stages of the Requisition.

• Search by Requisition ID, Requester ID, Date Range, Status or Purchase Order ID.
Manage Requisitions

General Information

• The different stages of the Requisition that are complete or in progress are highlighted with an active link.

• The Manage Requisition page allows users to: view Approvals, Copy the requisition, Edit the requisition, View Print the requisition and more.
Manage Requisitions

General Information

• Requesters can edit or cancel a requisition if the document status is Open, Pending, or Approved.

• If changes or corrections are required and the Requisition State is one of the following, contact your Buyer in Procurement Services:
  • PO(s) Created
  • PO(s) Dispatched
  • Received
  • Partially Received
Canceling a Requisition

When a requisition is canceled, the budget check must be performed to release the pre-encumbrance.

1. Select “Cancel” from the dropdown menu on the Manage Requisitions page, then click the “Go” button.

After cancellation, the Total dollar amount of the requisition will be 0.00.
Cancelling a Requisition

To complete the cancellation, select **Check Budget** from the dropdown menu and then click the Go Button.
When the cancellation is complete, the Requisition State will be **Canceled**, the Budget **Valid** and the Total dollar amount will be 0.00. The pre-encumbrance should now be released.
Desktop Receiving
**Desktop Receiving** - A formal method for documenting acceptance of goods received from a vendor.

- Desktop Receiving will be required for MAV eSHOP POs greater than $5000 and any Controlled Assets (regardless of the dollar amount).

**Note:** *Central Receiving will perform desktop receiving for Capital and Controlled Asset.*

The Receive Items page is used to perform Desktop Receiving. You can access this page using the following navigation:

- Receive Items (Menu > e-procurement > Receive Items)
  - View receivable items for all Requisitions created by the Requester.
Receiving Items

1. Select the requisition/PO line(s) to receive.
2. Click the **Receive Selected** button.
3. If necessary, adjust the Received Date.
4. Enter the quantity received.
5. Attach the packing slip in the Receipt Comments.
6. Click the **Save Receipt** button.
Desktop Receiving Tips:

• Only receive in UTShare the items and quantities *physically* received.

• Capital and Controlled Assets delivered to Property Management will be received in UTShare by Property Management.

• Users can only receive in UTShare the items they requested. (The person who entered the requisition must receive it.)

Mav eShop - PO Vouchers
Purchase Order Vouchers

Things to Consider:

- There are two types of Matching Processes in UT Share:
  - PO Vouchers less than $5000 will invoke 2-way matching. It verifies that the purchase order and the invoice information matches.
  - PO Vouchers greater than or equal to $5000 invokes 3-way matching. It verifies that the items are received, and the invoice information matches the purchase order.
- If a match is found, the PO Voucher is automatically made ready for payment processing. If matching fails, the PO Voucher is placed on hold and the invoice will not be paid until the issue is cleared.
