My Wallet Expense Transaction Processing

The purpose of this job aid is to explain how to process transactions from My Wallet on an Expense Report in UTShare.

Credit Card charges made on the UTA Travel Card are imported from Citibank into the UTShare Wallet. Wallet transactions are processed for payment to the vendor as expense lines on an expense report. The steps below detail how to pull a My Wallet transaction into an expense report, complete the expense report, and submit the expense report for payment to the vendor.

1. Login to UTShare using your NetID and password.
2. Navigate to the Create Expense Report page using one of these two options:
   a. Travel and Expense Homepage, then click on the Create Expense Report tile
   b. NavBar > Menu > Travel and Expenses > Expense Report > Create/Modify
3. Enter the traveler’s EMPL ID number, click “Add”. If the ID number is not known, click the magnifying glass, enter the traveler’s name and click “Look Up”, then click on the traveler’s name.
4. A blank expense report will populate. From the Quick Start Populate From drop-down menu, select “A Travel Authorization” and click the Go button.
   A list of approved Travel Authorizations will appear. Click the “Select” button for the Travel Authorization for the applicable trip. If the Travel Authorization does not appear, verify the dates on the Copy from Approved Travel Authorization screen are appropriate for the trip dates.

**Note:** If the Travel Authorization for the trip does not appear in the appropriate date range, confirm that the Travel Authorization has been fully approved and has not already been applied to another Expense report.
i. Delete the Travel Authorization expense line from the expense report using the “-“ button.

5. Click on the “My Wallet” link to access the transactions available to process. The number indicates how many transactions are available.

**Note:** Clicking on the Expense Type on the My Wallet screen will display further information regarding the credit card transaction.

7. The selected Wallet transactions will be pulled into the Expense Report. There are actions to take on each expense line.
• Update the “Expense Type” to the appropriate Expense Type. Every line must be changed from a “Wallet” expense type to a Travel (TR) expense type.

• **When using My Wallet charges for regular travel meals, be sure to use the Meals Actuals Expense type, but these charges cannot exceed the allowed per diem for that location for the day.**

• **If utilizing Entertainment Meals, per diem rules do not apply, and an Official Occasion form must be completed and attached to the Expense Report.**

• When required, enter the expense line “Description” (requirement indicated by an asterisk and determined by the Expense Type selected).
