Travel Authorization
The Travel Authorization (TA) is used to authorize domestic and international travel for persons traveling on official university business. Prior approval for all business travel is required before the trip occurs.

The Travel Authorization **MUST** be “Approved” before the first day of travel.

An approved TA will be needed to book through the two approved travel agencies – Corporate Travel Planners (CTP) and Anthony Travel.

Foreign travel authorizations should be submitted 30 days in advance of the departure. If using State Appropriated Funds* additional approvals should be attached to the TA. Faculty requires approval by the Provost and Vice President for Academic Affairs. Staff requires approval by the Vice President for Human Resources.
Before traveling to Washington, D.C., if the intent is related to obtaining federal funds or impact federal policies, the traveler must submit information to the Office of State-Federal Relations (OSFR)

The form is available from the OSFR website at: http://www.osfr.state.tx.us/

The form will require your agency name “University of Texas at Arlington” and 3 digit Agency Code “714”.
A Travel Authorization is always required when there is an airfare charge, hotel charge, or an overnight stay. Should reflect accurate anticipated cost of trip. If no cost to the University, TA may reflect encumbrance* of $0.01.

*Encumbrance: a process that reserves funds for an anticipated expenditure. The Travel Authorization places an encumbrance on the Cost Center at the time of a valid budget check.
## Travel Authorization

A Travel Authorization Form (BF-T-F7) must be attached to the expense report when:

<tbody>
<tr>
<td>TA was not created in UTShare prior to start of trip</td>
<td>TA was not fully approved in UTShare prior to start of trip</td>
</tr>
<tr>
<td>Change in travel dates of two (2) or more days</td>
<td>Change to destination/duty location</td>
</tr>
</tbody>
</table>

**NOTE:** This form will be used in lieu of processing an exception
The Travel Authorization is used to encumber* funds for the trip; therefore, there should only be one expense line. Corrections related to the Travel Authorization encumbrance will require submission of the Travel Authorization Form to Travel Services.

**Employee Expense Type:**
- TA-Travel-Auth-Encumbrance (Domestic)
- TA- Foreign-Travel-Auth-Encum (Foreign)

**Non Employee Expense Type:**
- TRVL—Non Employee (Domestic or Foreign)
Travel and Expenses stores information in an Employee Profile. It contains data used to process expenses, such as department information and Chartfield values.

**ChartField**: Individual fields used to segregate budget data. The grouping or combination of chartfields is referred to as a “chartfield string”.

A default chartfield string is automatically applied to Travel Authorizations and Expense Reports. This information should be reviewed and updated accordingly.

Use the **Employee Profile** page, **Organizational Data** tab to modify the default chartfield string.

Travel Expense Report
The Expense Report (ER) is used to reimburse out-of-pocket business related expenses and provide a detailed record of the expenses.

All supporting documentation should be scanned and attached* to the ER in UT Share.

Reimbursements for travel expenses include (but are not limited to): Meals, Lodging, Mileage, Parking, etc.

Travel reimbursements should be submitted and fully approved in a timely manner otherwise payment to the traveler could be delayed.

*Travel Services recommends scanning documents in chronological order into a single PDF
Travel Expense Report

Within 60 days: ‘Error Free’ Expense Reports must be fully approved, processed through workflow, and be available for review by Travel Services no more than 60 days after the last date of travel.

More than 60 days: ‘Error Free’ Expense Reports that are fully approved, processed through workflow, and presented to Travel Services for review, and more than sixty (60) days after the last day of travel, will be subject to income and employment taxes. Departments will be required to pay the employer’s portion of the tax.
Gasoline for rental cars is reimbursable.

A copy of the rental car receipt must be attached to the expense report.
Travel Expense Report

Currency should be entered in U.S. dollars (USD) on the Expense Report.

Receipts for international travel should be converted to USD using the following website: www.oanda.com/currency/converter*

Travel reimbursements are issued to the traveler based on how they are setup to receive their paycheck (e.g. Direct Deposit or Check).

*Credit Card receipt can be accepted in lieu of conversion page.
The Travel Authorization (TA) must be linked to the Expense Report (ER) to release the encumbrance. Travel Services recommends using the “Associate Travel Authorization*” from the more options dropdown.

*This action cannot be performed until after an ER line has been filled out
A second report cannot be linked to the same TA number.

Additional reimbursements:
Create a second ER and reference both the TA and the original ER numbers in the “Reference” field.
Do Not include these Pre-Paid expenses on the ER:

- **Airfare** charged to the Corporate Business Account by Travel Services.
- Direct billed **Rental Car** expenses.
- Direct billed **Hotel** expenses.
Meals and Lodging

In State and Out of State travel rates are available from the General Services Administration (GSA) website (www.gsa.gov/perdiem). This site provides per diem* rates for destinations within the Contiguous United States.

Foreign travel rates are available from the Defense Travel Management website (www.defensetravel.dod.mil).

You must attach a screenshot of the GSA rates page to the Expense Report for the travel location.

*Per Diem: is the maximum daily allowance for meals and incidental expenses.
Foreign travel - Employees are reimbursed for actual meal expenses up to the Department of Defense rate, receipts are required if the amount exceeds this.

Original receipts are required for all other foreign travel reimbursements, such as hotels, transportation, etc.

Domestic travel - Per Diem for meal expenses based on GSA rates must include tax and tip (itemized receipts are not required).

Note: There are no meal reimbursements for non-overnight travel or in designated headquarters (DFW area).
Departments may invoke policies such as only claiming actuals, but the totals cannot exceed the GSA rate for the location.

If meals are included with a conference registration, the per diem will be prorated as follows:

- One (1) meal provided, per diem prorated to 75%
- Two (2) meals provided, per diem prorated to 35%
Texas sales tax for lodging will not be reimbursed.

Travel expenses for the actual hotel room cost, food and incidental expenses should be itemized daily on the ER.
If a conference hotel is used and the cost exceeds the GSA rate, supporting documentation must be submitted with the Expense Report.
Travel Expense Report

Personally Owned Motor Vehicle

Travelers may use odometer reading or an online mapping tool* for point-to-point mileage calculations.

Mileage is reimbursed in accordance with the IRS rate.

The current IRS rate defaults for the “Mileage” Expense Type and cannot be changed.

*If using an online mapping tool and state appropriated funds are used, you must use MapQuest to calculate mileage (http://www.mapquest.com).
Travel Expense Report

Incidental Expenses are limited to $5 per day* or less (receipts are not required). This includes tips for baggage handler, valet, hotel staff, etc.

There are no limits on Business Travel Fees (receipts are required). These fees include passport, gasoline (for rental car), and other fees or charges incurred during travel.

The Expense Type for Business Travel Fees and Incidental Expenses are the same. Each item type should be entered on a separate line on the ER.

Foreign incidentals use the same expense types but vary in amount by location.

*Note: The $5 per day excludes tips for meals.
