Introduction

The Travel Card program at UTA utilizes Citibank MasterCard to streamline expenses incurred by employees while on official UTA business travel. This program has been designed to reduce the amount of personal funds used by the traveler, as well as costs associated with cash advances. It also simplifies the processing of travel expense reports. Travel card holders must adhere to UTA Travel guidelines and procedures.

Travel Card purchases are reconciled through the MyWallet function in UTShare. Using MyWallet, expense transaction information can be pulled directly into an expense report, where accounting information can be assigned and approvals for the purchases obtained. Payment to CitiBank is generated through UTShare and charged to cost centers and projects according to the accounting entries made on the expense reports.

How to Get a UTA Travel Card

Current employees who travel 3 or more overnight trips per year for official university business will be eligible to apply for the Travel Card. The application form, *Travel Card Program Application Form* (Form BF-T-F10) can be found on the [Business Affairs forms](#) page.

Completion of the Canvas course "[How to Travel for the University](#)" is required for all applicants that have not previously traveled for the University. This course covers the policies and procedures that govern business travel on behalf of the University and details the "why" behind business travel best practices for maintaining professional standards. This is a virtual, selfpaced course that must be completed prior to submitting a Travel Card Application.

Please see Procedure BF-T-PR13 University Travel Card Program for further details regarding the UTA Travel Card, including:

- Travel card expense limits
- How to report a lost or stolen card
- Processes for disputing fraudulent charges
- Cardholder termination or transfer instructions

Reconciling My Wallet Transactions

Credit Card charges made on the UTA Travel Card are imported from Citibank into the UTShare Wallet. Wallet transactions are processed for payment to CitiBank as expense lines on an expense report. The steps below detail how to pull a My Wallet transaction into an expense

report, complete the expense report, and submit the expense report for payment to the vendor.

Reconciliation Timeline

An approved error-free expense report should be submitted to Travel Services no later than 30 days of the last day of travel. If an approved error-free expense report has not been submitted by the 61st day after the travel, the Travel Card charges become taxable to the traveler and the department. Cardholders who do not have an approved error-free expense report within 120 days after the last day of travel will have their Travel Card terminated and will not be able to request a cash advance.

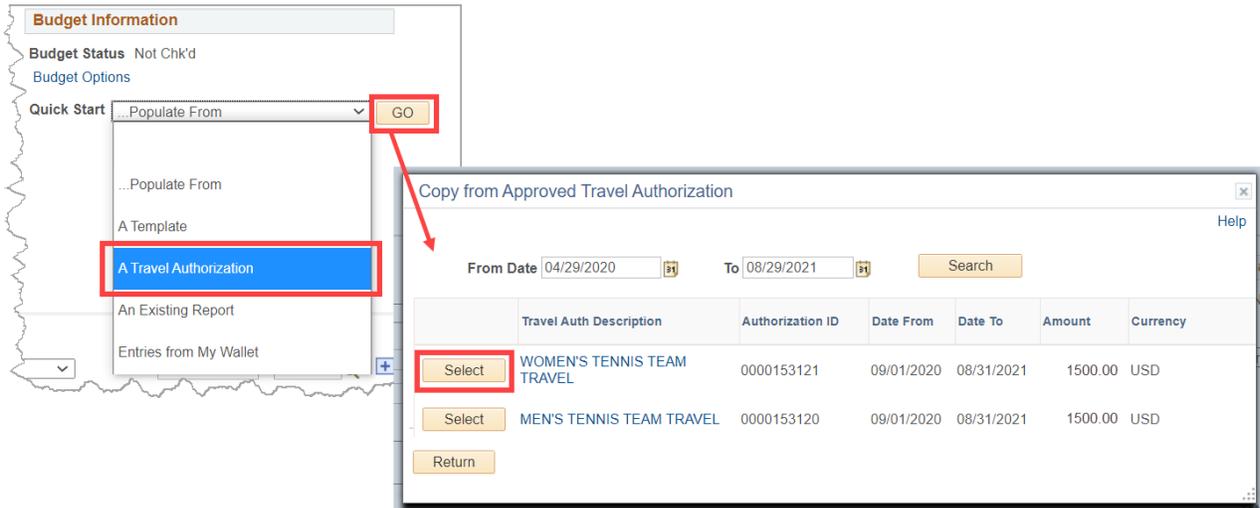

30 Days After Travel	30-60 Days After Travel	61+ Days After travel	120 Days After Travel
Approved Expense Report Submitted for Travel Services Review.	Resolve identified issues; Error-free Expense Report Due by 60 th Day post travel.	If error-free expense report not submitted, Travel Card charges become taxable.	If error-free expense report not submitted, Travel Card terminated.

Steps to Reconcile Travel Card Charges

1. Login to UTShare using your NetID and password.
2. Navigate to the Create Expense Report page using one of these two options:
 - a. Travel and Expense Homepage, then click on the Create Expense Report tile
 - b. NavBar > Navigator > Travel and Expenses > Expense Report > Create/Modify
3. Enter the traveler’s EMPL ID number, click “Add”. If the ID number is not known, click the magnifying glass, enter the traveler’s name and click “Look Up”, then click on the traveler’s name.

i. Delete the Travel Authorization expense line from the expense report using the “-” button.

5. Click on the “My Wallet” link to access the transactions available to process. The number indicates how many transactions are available.

6. Select the My Wallet transactions to process on the expense report by clicking the “Select” box. If all transactions are to be processed, select the “Select All” button. Once the transactions are selected, click the “Done” button.

Note: Clicking on the Expense Type on the My Wallet screen will display further information regarding the credit card transaction.
