

STANDARD OPERATING PROCEDURE

Search for Safety Data Sheet (SDS)

Step 1: Go to the Chemical Environmental Management System (CEMS) <http://cems.uta.edu>.

The screenshot shows the CEMS Dashboard in a web browser. The address bar displays "cems.uta.edu/CEMS/Dashboard". The page header includes the University of Texas ARLINGTON logo. The main content area is divided into three sections: "My Profile" (Welcome Guest, login), "Quick Links" (Search SDS, Related Links, Contact EH&S, Documentation), and "Notices" (Remember to practice SOCIAL DISTANCING while working in the lab! This is an important measure in preventing the spread of coronavirus. Be safe! CEMS group trainings are provided via Teams. If you have questions please contact Elisabeth Rowlett at rowlett@uta.edu.). A navigation bar at the bottom shows "Hazardous Waste".

Step 2: Click on "Search SDS" in "Quick Links" window.

Safety Data Sheet Search

Chemical Name
 exact match

Product Number

Molecular Formula

CAS

Manufacturer

Container Barcode

Issued 04/25/2011
Revised 02/03/2022

Step 3: Search by Chemical Name, Product (Catalog) Number, CAS, Manufacturer, and/or Container Barcode. DO NOT search by Molecular Formula.

If the results of your search differ from what you're looking for, click on "Contact EH&S" in "Quick Links" window and send your request:
