

Over the last year, the Texas Education Agency passed new mandates necessitating new student fees. While UTA's College of Education is one of the few universities that has never charged additional fees, this is no longer the case with these new mandates. The two new required fees for students are a one-time technology fee and a field supervision fee for specific courses, which covers the required hiring of supervisors by the university. These required fees are nominal when compared to those charged by other institutions.

Technology Fee

Per the Texas Education Agency (TAC 229.9), a \$55 one-time technology fee will be assessed for all new students entering the program between March 1, 2017 – August 31, 2018. Beginning September 1, 2018, the one-time fee will drop to \$35 per student.

Field Supervision Fee

Students taking the following courses will be assessed a \$250 fee per course to cover the required clinical supervision beginning Summer 2017.
