THE ANDERSON SPORT PERFORMANCE LECTURE

Overview:
The curriculum of the Department of Kinesiology includes the study and practice of sport. It is clearly understood that sport is a significant element of our culture and that it is conducted in a variety of settings and for a variety of purposes. Therefore, this lecture is established to provide all interested individuals an opportunity to broaden their understanding of this culture phenomenon.

Purposes:
1. This activity is designed to supplement the department's educational mission through presentations and interactions with significant professionals from various areas of the sport culture.
2. This activity is designed to recognize significant professionals from the area who are making contributions to our sport culture and can provide different perspectives relative to sport performance.
3. This activity is designed to develop more interaction with sport enterprise outside the department and the university.

Previous Anderson Sport Performance Lectures:

19th Fall 2005  Brad Mayne, B.S., Health, Physical Education & Recreation, University of Utah, President/CEO, American Airlines Center “Revenue Sources in Major Arenas: Following the Money”

18th Spring 2005  Dr. Kathleen S. Porter, Lecturer and Undergraduate Advisor Department of English, The University of Texas at Arlington “Baseball Babes: The Roles of Women in Baseball Film”

17th Fall 2004  Mr. Scott Murray, B.S., NBC5 Sports Director/ Anchor, 1980 - 2003, President/ CEO of Scott Murray Productions, Senior Vice President of Public Affairs for PlainsCapital Corporation, “Sports and Ratings: Show Me the Money”

16th Spring 2004  Dr. Don G. Kyle, Department of History, The University of Texas at Arlington, “Ancient Olympics and Their Relevance for the Modern Olympics”

14th Spring 2003  Dr. Craig A Depken II, Department of Economics, The University of Texas at Arlington, “The Economics of Sports Arenas: A Property Rights Approach”

13th Fall 2002  Dr. James R Morrow, University of North Texas, “Health of Hispanic Youth in Texas: Participation and Training in Health”

12th Spring 2002  Dr. Jan Suffolk Todd, The University of Texas at Austin, “Ironmaids: An Illustrated History of Women & Strength Training”

11th Fall 2001  Mr. Brad Mayne, B.S., President & CEO of Center Operating Co., “The American Airlines Center Project: A Public-Private Partnership”

10th Spring 2001  Dr. Dale G. Pease, University of Houston, “Threat or Challenge: Your Approach to Competition?”

8th Spring 2000  Dr. David H. Arnott, Dallas Baptist University, “Corporate Cults: Supply and Demand in Professional Sports”

7th Fall 1999  Dr. Peter G. Smell, The University of Texas Southwestern Medical Center, “Walking Sports Rather than Playing: A Challenge for Physical Education in the New Millennium”

6th Spring 1999  Dr. Mark A. Thompson, University of Kansas, “Finding the Good: Psychological Skills for Coping in Sport and Life”

5th Fall 1999  Dr. William P. Morgan, University of Wisconsin-Madison, “The Role of Hypnosis in Exercise and Sport Science”

4th Spring 1998  Dr. Abu B. Yilla, Department of Kinesiology, The University of Texas at Arlington, “The Development of the Lightweight Wheelchair”

3rd Fall 1997  Dr. Don G. Kyle, Department of History, The University of Texas at Arlington, “The Pentathlon at the Ancient Greek Olympics: Performance and Problems”

2nd Spring 1997  Dr. David Cook, President of Mental Advantage, Inc., Fort Worth, TX, “The Mindset of a Champion”

1st Fall 1996  Mr. Mark Holtz, B.A., Texas Rangers Major League Baseball Club Television Play by Play Announcer, Arlington, TX, “The Media Perspective in Sport”
Dr. Eugene W. Anderson (1932 – 1997)

Dr. Eugene W. Anderson was Professor and Chair of the Department of Exercise, Sport and Health Studies (now Kinesiology) at The University of Texas at Arlington from 1978-1994. At the time of his death, Dr. Anderson was in the cherished position of a modified service-retired Professor (50% employment) in his 19th year in our Department of Exercise, Sport and Health Studies. His professional career of over 40 years included service as an assistant vice-president for academic affairs, university department chair, college coach, high school instructor and high school coach.

Eugene W. Anderson received his Bachelor of Science in Physical Education in 1954 and the Master of Science in 1959 from Fort Hays State University in Kansas. He received the Doctorate in Education in Physical Education from Arizona State University in Tempe, Arizona in 1970.

Dr. Anderson’s Sport Performance career began with the Kinsley, Kansas Coyotes where he participated in four years each of football, basketball and track. He continued in the athletic world at Fort Hays State University by participating in football (one year), basketball and track where he finished fourth in the high jump at the NAIA National Meet. After serving two years in the United States Army in Fort Bliss, Texas, Dr. Anderson taught history, health, drivers’ education, boys and girls physical education and coached the Wildcats in Hanover, Kansas. He then was a high school instructor of history and coached football, basketball and track for two years in Hays, Kansas. Upon the completion of his Masters’ Degree, he was employed at Olivet College in Olivet, Michigan from 1960-64 as an assistant professor of physical education and assistant football coach, head basketball coach and golf coach. He then became an assistant professor of physical education and basketball coach at Chico State College in Chico, California (1964-68). In 1968, Dr. Anderson became Chair of the Physical Education Program and subsequently in 1972, Professor and Chair of the Division of Health, Physical Education and Athletics at Southwest State University in Marshall, Minnesota. In 1977-78, he was the Assistant Vice President for Academic Affairs at the same institution.

Dr. Anderson was very prominent in the development of our current Kinesiology academic program. During his tenure at UTA, the Health Education and Dance minors were developed. The Bachelor of Science in Exercise Science degree was started for students in the Allied Health Sciences. The physical education-athletic coaching degrees, along with certification for teaching K-12 were shaped and refined. Dr. Anderson’s expertise and appreciation for science in sport and performance created the popular KINE 1400 Introduction to Exercise Science class (there are currently two lecture and seven laboratory sections per semester). His understanding of the acquisition of motor skills dramatically influenced the pedagogy curriculum. His experiences in sport and coaching directly impacted the departmental performance curriculum. Perhaps Dr. Anderson’s most intense performance curriculum. Perhaps Dr. Anderson’s most intense performance curriculum. Perhaps Dr. Anderson’s most intense performance curriculum. Our Exercise, Sport and Health Studies academic unit. The facilities’ blueprint included numerous laboratories, classrooms, learning centers, student, faculty and activity areas that would have provided an educational setting that would be comparable to the world at Fort Hays State University by participating in football (one year), basketball and track where he finished fourth in the high jump at the NAIA National Meet. After serving two years in the United States Army in Fort Bliss, Texas, Dr. Anderson taught history, health, drivers’ education, boys and girls physical education and coached the Wildcats in Hanover, Kansas. He then was a high school instructor of history and coached football, basketball and track for two years in Hays, Kansas. Upon the completion of his Masters’ Degree, he was employed at Olivet College in Olivet, Michigan from 1960-64 as an assistant professor of physical education and assistant football coach, head basketball coach and golf coach. He then became an assistant professor of physical education and basketball coach at Chico State College in Chico, California (1964-68). In 1968, Dr. Anderson became Chair of the Physical Education Program and subsequently in 1972, Professor and Chair of the Division of Health, Physical Education and Athletics at Southwest State University in Marshall, Minnesota. In 1977-78, he was the Assistant Vice President for Academic Affairs at the same institution.

Dr. Anderson was very prominent in the development of our current Kinesiology academic program. During his tenure at UTA, the Health Education and Dance minors were developed. The Bachelor of Science in Exercise Science degree was started for students in the Allied Health Sciences. The physical education-athletic coaching degrees, along with certification for teaching K-12 were shaped and refined. Dr. Anderson’s expertise and appreciation for science in sport and performance created the popular KINE 1400 Introduction to Exercise Science class (there are currently two lecture and seven laboratory sections per semester). His understanding of the acquisition of motor skills dramatically influenced the pedagogy curriculum. His experiences in sport and coaching directly impacted the departmental performance curriculum. Perhaps Dr. Anderson’s most intense interest, in addition to curriculum, was in how the curriculum affected facility development. In the 1981-85 academic years, he gave numerous hours to the planning of an educational facility for our Exercise, Sport and Health Studies academic unit. The facilities’ blueprint included numerous laboratories, classrooms, learning centers, student, faculty and activity areas that would have provided an educational setting that would be comparable to the academic program he helped create. The facilities’ plans continue to be a model for our departmental future.

Dr. Eugene W. Anderson is currently one of our two Professor Emeriti in the Department of Kinesiology at UTA. The Department of Kinesiology has established The Eugene W. Anderson Endowed Memorial Scholarship in his honor. The Anderson Scholarship is awarded to Kinesiology undergraduate majors twice a year (Fall and Spring Semester) with preference to a Teacher Education Certification student ($300.00). In addition to the Anderson Endowed Scholarship, the Department of Kinesiology is currently in the process of endowing The Anderson Sport Performance Lecture. Please note the departmental web site for additional information on both of these endowment activities (www.uta.edu/coed/kinesiology/events/anderson/).

James C. Sterling, M.D.

James Sterling, M.D. practices Physical Medicine and Rehabilitation specializing in musculoskeletal medicine and sports medicine at Dallas Orthopedic Center in Dallas, Texas. He is a 1978 graduate of Houston Baptist University where he received his Bachelor’s degree. He also has a Masters degree in Exercise Science from Texas A&M University. He completed medical school in 1982 at the University of Texas Health Science Center in San Antonio, Texas where he did a General Surgery internship. He completed his Physical Medicine and Rehabilitation residency at the University of Texas Southwestern Medical Center/Parkland in Dallas. He is Board Certified in Physical Medicine and Rehabilitation and Preventive Medicine Public Health. He is a Fellow of the American Academy of Physical Medicine and Rehabilitation and is a Diplomat of the American Board of Preventive Medicine. He is the author and co-author of twenty-one scientific articles and has presented over 60 abstracts and presentations related to the field of Sports Medicine and Musculoskeletal Medicine. He is currently a Clinical Professor in the Department of Physical Medicine and Rehabilitation at the University of Texas Southwestern Center here in Dallas. He is a fellow of the American College of Sports Medicine.

Dr. Sterling is currently a physician in the U.S. Olympic Sports Medicine program. He began that involvement in 1994 with his volunteer program at the United States Olympic Training Center in Colorado Springs. In 1995 he was a physician for the United States Olympic Festival in Colorado Springs. He then participated in the 1996 Paralympic Games in Atlanta in which he was a physician for the track and field athletes. Most recently he served as a physician to the 1998 Winter Olympics in Nagano, Japan. He is still currently active with the USOC Program and was the Head Physician for the 2000 Paralympics Games in Sydney, Australia. He traveled with the World Champion Junior Olympic Women’s Basketball Team to the FIBA Championship in Puerto Rico in 2004. In 2006 he served as the Chief Medical Officer at the Torino Winter Olympic Games.
