IMMUNIZATION REQUIREMENTS
Where do I find information on the requirements?

http://www.uta.edu/conhi/students/imm-prelic/index.php

Go to www.uta.edu/conhi; Student Resources; Pre-Licensure Immunization Requirements on the right-hand menu
What do I have to submit?
What is a titer?

- A titer is a blood test that measures your immunity to a disease. Get quantitative, IgG (NOT IgM) titers. Upload lab report.

- For more information visit website.

This test was performed using the Siemens chemiluminescent method effective November 21, 2013. Quantitative values from the previous Ortho Vitros method should not be used interchangeably.
The accelerated Hep B or Twinrix is a four (4) dose series which take 12 months to complete.

- Dose 2 = 7 days after dose 1, Dose 3 = 21-30 days after dose 1, Dose 4 = 12 months after dose 1

This will not be accepted by UTA CON UNLESS you have all 4 doses.
MMR (Measles, Mumps, Rubella)

Documentation of Series

2 Vaccinations

OR

#2 no less than 28 days after first dose
Varicella (Chickenpox)

Documentation of Series

2 Vaccinations

OR

#2 no less than 28 days after first dose
Varicella (Chickenpox)

NOT

History of Chickenpox
Tdap (not DPT, Dtap or Td)

1 Vaccination

If Tdap is 10+ years old:
Updated Tdap is required
Tuberculosis Screening (TB)

You should NOT complete TB testing until you are accepted to the Upper Division program!

Upon acceptance you will receive a deadline to receive and upload test results!
Tuberculosis Screening (TB)

Initial Screening

2 Skin Tests (PPDs) Within year

Blood Test (Quantiferon or T-Spot)

Chest X-Ray Results (with positive test only)

**Minimum of 7 days between tests**
Influenza (Flu)

1. Vaccination annually

Only during flu season:
September - March
This is acceptable documentation IF it includes the student’s name!
Good Documentation

IF it includes the student’s name!
The jet age brings communicable disease closer to every community. Smallpox, polio, diphtheria (D), whooping cough (P), tetanus (T), and measles can be prevented by periodic immunization.
We cannot accept records from a school district.

The records must be original records of vaccine and must be signed or stamped by a physician.

Documentation can be on clinic or doctor’s letterhead.

County Health Department records that include the date of vaccine, but not the lot number or administration information are accepted.
Deadline

All required immunizations and titers are expected to be complete at time of acceptance to the Upper Division program. This is March for Fall admissions and September for spring admissions.

You will not be allowed to start the Upper Division program until all requirements are met. Acceptance to the UD program is contingent upon your immunization clearance being complete.

- You may use any facility to get your vaccines and titers.
  - UTA Student Health Center
  - County Health Department
  - Doctor’s Office
Questions?

Email us at:

BSNImmunizations@uta.edu

You may send us a copy of your immunization records for review.
