

SERVICE LEARNING

Service Learning integrates academic coursework with service to the community. Students engage in classroom activities and discussions and perform local projects related to their academic coursework, and reflect upon those experiences.

★ BENEFITS

- Contribute to student success through the Maverick Advantage Initiative
- Collaborate with the community to create a dynamic, hands-on experience
- Foster student teamwork, interpersonal communication, conflict resolution, and critical thinking skills
- Effect change in long-held perceptions and bias through real-life experiential pedagogy
- Acquire new research data to add to worldwide knowledge

The Center for Service Learning is the liaison between faculty, staff, and community agencies. CSL offers service learning professional development, resources, programs, events, and mentoring for faculty and for the UTA community.
