Konstantine Bakintas, PE, has been named Engineer of the Year by the DFW Mid-Cities Chapter of the Texas Society of Professional Engineers.

A principal and senior civil engineer at Baird, Hampton & Brown, his experience includes design and project management for a wide variety of civil and environmental assignments, such as transportation, public utilities, and land development. His clients have included the US Army Corps of Engineers, local governments and private companies. He also currently serves as city engineer for two municipalities in Texas.

Bakintas earned a bachelor of science in civil engineering from the University of Utah in Salt Lake City and a masters of engineering in Water Resources and Environmental from the University of Texas at Arlington. While at university, he was inducted into the engineering honor society Tau Beta Pi and the civil engineering honor society Chi Epsilon.

After becoming a licensed professional engineer in the state of Texas, he established and continues to maintain his licensure and experience record with the National Council of Examiners for Engineering and Surveying.

Bakintas has been a member of the National Society of Professional Engineers since 1986. In 2002, he started serving on the DFW Mid-Cities Chapter Board of Directors.

While on the board, he held various director and officer positions, including past-president. Currently he serves as the Texas Region V vice president. He has also been a member of the American Society of Civil Engineers since 1990, and in 2008 joined the Texas Municipal League as an associate member.
Bakintas lives in Grapevine with his wife Stephanie and enjoys sailing on Lake Grapevine, riding motorcycles, movies and reading.
