Scholarship Renewal
Requirements Review Process

The Scholarships Office reviews merit scholarship recipients for renewal twice a year.

First, after the spring semester and again after the summer semester.
Scholarship Renewal Requirements Review Process Continued...

If all renewal requirements are met after the spring semester:
  • Scholarship will be renewed for the upcoming fall semester

If all renewal requirements are not met after the spring semester:
  • Recipient may take summer classes at UTA in order to meet requirements
Important Summer Course Reminders

• Summer courses must be taken at UTA to count towards the scholarship requirements
• Transfer hours do not count towards the scholarship requirements
• The time period between final summer grades posting is close to payment due date for fall
  • Payment plan or other options may be necessary while waiting for evaluation
Final Semester Enrollment Requirement

• Merit scholarship recipients are allowed to enroll in less than full-time during graduating semester and still retain their scholarship
  • Must be meeting all other requirements
  • Email must be sent to Scholarship Office (schol@uta.edu) prior to start of graduating semester
Merit Scholarship Limits

Recipients are eligible for merit scholarship up to four years or until recipient graduates from UTA

- If student graduates in less than four years, scholarship funding ends after final semester
Failure to Meet Requirements

Failure to meet renewal requirements will result in termination of the scholarship. Once scholarship is lost, it will not be re-instated.
