Dynamic Earth

We've got a brand new show at the Planetarium starting Friday, January 9!

[Dynamic Earth](#) explores the inner workings of Earth's climate system. With visualizations based on satellite monitoring data and advanced supercomputer simulations, this cutting-edge production follows a trail of energy that flows from the Sun into the interlocking systems that shape our climate: the atmosphere, oceans, and the biosphere. Audiences will ride along on swirling ocean and wind currents, dive into the heart of a monster hurricane, come face-to-face with sharks and gigantic whales, and fly into roiling volcanoes.

Dynamic Earth is playing this spring (Jan 9 – May 24) at these times:

Fridays at 6:00 PM
Saturdays at 5:30 PM
Sundays at 1:30 PM

Spring Schedule

Start your spring early with the Planetarium's Spring Schedule! We've got a great selection of shows; including a brand new one! The Spring Schedule runs from January 8 – May 24. Come watch them all!

Thursdays

6:00 PM – [Black Holes](#)

Fridays

6:00 PM – [Dynamic Earth](#)

Saturdays

1:00 PM – [Secret of the Cardboard Rocket](#)

2:30 PM – [Black Holes](#)

5:30 PM – [Dynamic Earth](#)

7:00 PM – [Pink Floyd](#)

Sundays

1:30 PM – [Dynamic Earth](#)

3:00 PM – [Spacepark 360: Infinity](#)
