FALL PUBLIC SHOW SCHEDULE

Our public shows will continue this fall with the addition of "Pink Floyd" on Friday evenings. The new schedule will run from September 9 through November 27.

September 9 – November 27

Fridays

- 6:00 pm – THE HOT AND ENERGETIC UNIVERSE
- 7:00 pm – PINK FLOYD

Saturdays

- 1:00 pm – COSMIC COLORS
- 2:30 pm – SECRET OF THE CARDBOARD ROCKET
- 5:30 pm – THE HOT AND ENERGETIC UNIVERSE
- 7:00 pm – PINK FLOYD

Sundays

- 1:30 pm - ASTRONAUT
- 3:00 pm – SPACEPARK 360: INFINITY

All planetarium shows start with "Texas Stargazing," presented by a live scientist. Each show is approximately one hour long.

A NEW PLANETARIUM SHOW:

Featured Public Show

THE HOT AND ENERGETIC UNIVERSE

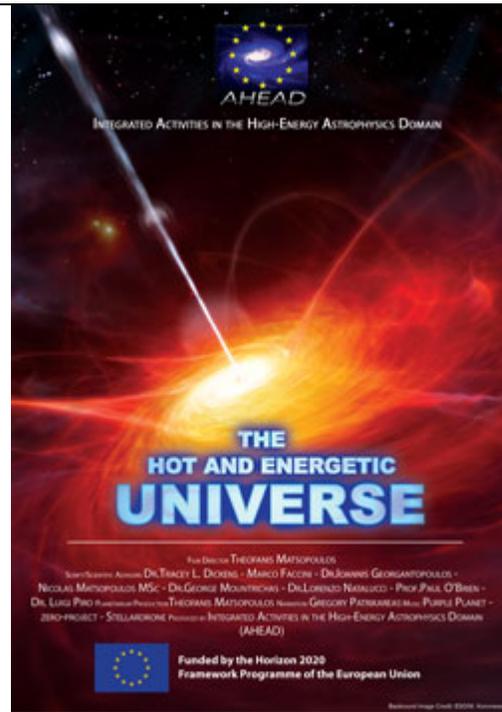

Plays for public:

Fridays

- 6:00 pm

Saturdays

- 5:30 pm

THE HOT AND ENERGETIC UNIVERSE

The Planetarium's new documentary "The Hot and Energetic Universe" presents -- with the use of immersive visualizations and real images -- the achievements of modern astronomy, the most advanced terrestrial and orbital observatories, the basic principles of electromagnetic radiation, and the natural phenomena related to High Energy Astrophysics.

The documentary is produced by "Integrated Activities in the High-Energy Astrophysics Domain" (AHEAD).

AHEAD is a project funded by the European Commission in the framework of Horizon 2020 (access to large-scale facilities). It is led by IAPS/INAF in Rome and involves most universities and research institutes which are involved in High Energy Astrophysics in Europe. The project aims to combine the efforts of all these institutes in the analysis of X-ray data and to facilitate access to infrastructures distributed across Europe.

"The Hot and Energetic Universe" plays at the Planetarium at 6:00 p.m. on Fridays and 5:30 p.m. on Saturdays.

Planetarium to host international conference of Digistar Users Group in September

The Planetarium is hosting the Digistar Users Group (DUG) Conference in late September. Planetarium professionals from all around the world will come to UTA to attend, and the conference will be a great opportunity for the Planetarium to showcase its state-of-the-art facility. The conference will also provide professional development and training for current planetarium staff.
